

The tradition of south Italy's music

student:Debbie Georgiopolou

THE MUSICAL TRADITION

The music of south Italy, as part of the wider popular culture, includes songs that respond to all aspects of everyday life. In all communities of south Italy we see compositions dominating, such as obituaries, love songs, wedding songs, religious songs etc. The lyrics of the songs were mainly written in Greek and Romance dialects and often in the Italian language, without showing difference in their theme matter.
