

We unite our students by creating an acrostic ...

We create **an acrostic** - a type of word puzzle - *about Pythagoras* (life, philosophy, music, mathematics etc) by using every letter of the words:

BERNALDA + **SARAVALI** = **ETWINNING**

or about our e-Twinning connection. With each letter we write a phrase, a word, a sentence or an apothegm.

An acrostic based on the most characteristic points of the Moral Philosophy of Pythagoras

by Theoni Angelopoulou

Be silent or let the words be worth more than silence

+

Educate the children and it won't be necessary to punish the men

+

Reason is immortal, all else mortal

+

Number rules the universe

+

Above all things, respect yourself

+

all is number

+

Do not say a little in many words, but a great deal in few

+

Above the cloud with its shadow is the star with its light

+

Silence is better than unmeaning words

+

A thought is an idea in transit

+

Rest satisfied with doing well, and leave others to talk of you as they please

+

A man is never as big as when he is on his knees to help a child

+

Virtue is harmony

+

Anger begins with folly, and ends with repentance

+

Let no one persuade you by word or deed to do or say whatever is not best for you

+

It is only necessary to make war with five things; with the maladies of the body, the ignorances of the mind, with the passions of the body, with the seditions of the city and the discords of families

=

rest satisfied with doing well, and leave others to talk of you as they will

+

The oldest, shortest words-"yes" and "no"- are those which require the most thought

+

We ought so to behave to one another as to avoid making enemies of our friends, and at the same time to make friends of our enemies

+

In anger we should refrain both from speech and action

+

No man is free who cannot control himself

+

No one is free who has not obtained the empire of himself

+

It is better wither to be silent, or to say things of more value than silence. Sooner throw a pearl at hazard than an idle or useless word; and do not say a little in many words, but a great deal in a few

+

No one is free who has not obtained the empire of himself

+

Geometry is knowledge of the eternally existent

BERNALDA+SARAVALI=ETWINNING

An acrostic based on the most characteristic points of the Moral Philosophy of Pythagoras

by Christodoulos Moiralis

Be silent or let disrespectful words be worth more than silence

+

yEs and no are the words which require the most thought

+

Remember that silence is better than unmeaning words

+

No man is free who cannot control himself

+

Above all things, respect yourself

+

Life is the art of winning the good or evil

+

Do make great things, not promise great things

+

As long as men massacre animals, they will kill each other

+

Sort words like “yes” and “no” require the most thought

+

As soon as laws are necessary for men, they are no longer fit for freedom

+

Remember that meaningful silence is better than meaningless words

+

Above all things, respect yourself

+

Virtue is harmony

+

Avoid promising great things, you should make great things

+

Let disrespectful words be worth more than silence if you can't be silent

+

In the humming of the strings there is geometry
