

# LIVE OR DIE?

by Kristian Klapi

Frank was the son of a rich businessman and manager of a clinic. His name was Michel Therstfield . But unfortunately, Michel died and Peter Therstfield, Michel's brother, became the new manager. Peter's nickname was "The man hidden in shades". Frank's mother got married to Peter. Frank was worried and angry about these events. So he went out in the countryside and there he met his father's ghost that told him wonderful stories. One day, the ghost told him that Peter organized his murder and indeed killed him to get control of the clinic. Frank decided to take revenge. Frank was also in love with Wendy, Hubert's daughter.

One night, Frank closed his room door so that Peter could not hear what he was going to say to his best friend on the phone. But Hubert opened the door to say "Good night" to Frank, who thought that it was Peter and grabbed a pair of scissors and killed his future father-in-law.

Wendy was really worried about Frank's action so one day at the clinic she drank 40 penicillin pills and died within minutes. Frank gave Wendy a proper burial.

Peter wanted Frank to die, too. John, Wendy's father, was very angry with Peter about the deaths of his dad and sister, so he collaborated with Peter to kill Frank. They set him up, but Frank had a pair of scissors with him, so he wounded both Peter and John.

Merlin, Frank's mum, realised her mistake and drank penicillin pills herself. As John and Peter were dying, Frank stabbed himself with a knife. His last words were "Live or die"
