

SHAKESPEARE IN CONFUSION

by Eirini Trifiati

David Beckham was the illegitimate child of Prince Charles of England. His father died at a terrible accident, but before that, he had already acknowledged him as his son. Prince William, Charles' son and David's brother, got married to Catherine Middleton, a young and gorgeous duchess who was in love with David.

One night, David saw his dead father's ghost who advised him to murder William, marry Catherine and steal the throne. David liked the idea, but things went wrong and instead of William, he accidentally killed Catherine, who was hiding behind the curtain. Devastated, he killed himself by drinking poison.

Prince William got married to Pippa Middleton, his deceased wife's sister, but didn't live happily ever since...

David and Catherine's ghosts haunted him until they managed to drive him crazy. Finally, Pippa Middleton was announced as the new Queen of England!!!
