

My Carnival, Your Carnival

School and class: King's College, Madrid . Induction English class.

City and country: Madrid, Spain.

Hello there! Thank you for participating in the "My Carnival, Your Carnival" culture exchange! First, you can collectively draw or make a collage about Carnival in your country or region:

Now, explain to a class of students from a different country what your Carnival is like. What is the best part about it? How do people dress up? Do you wear masks? Feel free to be creative!

Carnival in Spain is very fun. We dress up in different costumes, like Cinderella, Batman, unicorns, ducks, clowns, cowboys and superheroes. We decorate and wear masks over our eyes. At school, we play funny games with our teachers, and enjoy ourselves a lot. Sometimes we dance with friends and family, and play jokes on each other. We really enjoy carnival and look forward to it each year!
