

Όνομα: _____

«Οι αριθμοί μέχρι το 50»

1. Συμπληρώνω τους αριθμούς που λείπουν:

2. Γράφω ποιοι αριθμοί κρύβονται πίσω από το κάθε σχήμα:

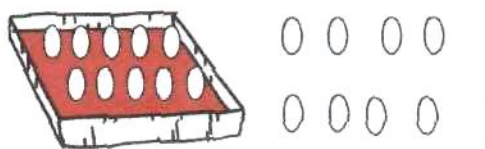

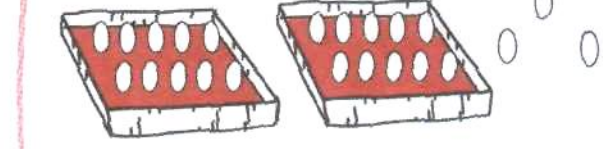

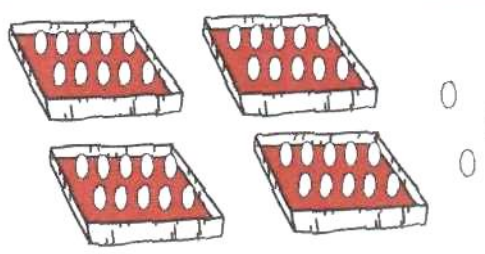

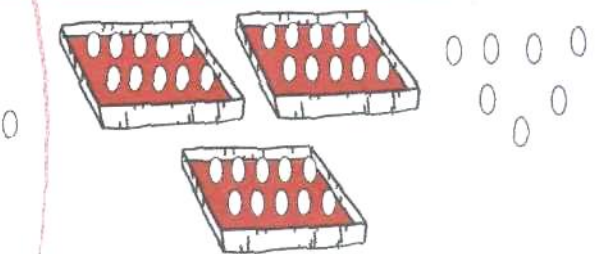

1	2	■	4	▲	6	7	8	●	10
11	12	13	14	◆	16	●	18	19	▲
21	22	■	24	25	■	27	28	29	30
●	32	33	◆	●	36	◆	▲	39	◆
41	42	43	44	■	46	47	48	▲	50
51	52	53	54	55	56	57	58	59	60

◆	15			
■	3			
▲	5			
●	9			

3. Βρίσκω ποιος αριθμός είναι πριν και ποιος μετά:

4. Πόσα είναι όλα; Συμπληρώνω όπως στο παράδειγμα.

 <p>10 + ... = ...</p>	 <p>10 + 10 + ... = ...</p>
 <p>... + ... + ... + ... + ... = ...</p>	 <p>... + ... + ... + ... = ...</p>

5. Κάθε ανθοδέσμη έχει 10 λουλούδια. Υπολογίζω πόσα λουλούδια έχω κάθε φορά:

$$10 + 8 = \square$$

$$\square + \square + \square = \square$$

$$\square + \square + \square + \square = \square$$

$$\square + \square + \square + \square = \square$$

6. Κάθε κουτί έχει μέσα 10 βόλους. Πόσοι είναι οι όλοι οι βόλοι σε καθένα από τα σχήματα;

$$\dots + \dots + \dots + \dots + \dots = \dots$$

$$\dots + \dots + \dots + \dots = \dots$$

$$\dots + \dots + \dots = \dots$$

$$\dots + \dots + \dots + \dots + \dots = \dots$$
