

18th Kindergarten of Rhodes, Greece

DOLL HAS A SOUL

*IMPLEMENTATION OF THE PROJECT
FOR THE SCHOOL YEAR 2017-2018*

Elpida Tamvaka
Kokonitsa Sakellaki

Adana, Turkey
October 2018

Staff and students working for the implementation

- 2 teachers
- 22 children, aged 4-7

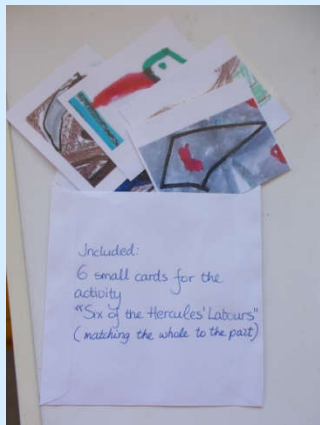

Our school also embraces an inclusion class for children with learning disabilities.

We prepared for each of our partners:

- A short version of our myth
- Illustrated symbols of the myth
- A photo of our hero
- Visual instructions for making the puppet
- Three math activities based on our myth

When we received our partners' letters:

- We followed the instructions and made their puppet
- We studied their symbols and came up with brilliant ideas about their myth, which we recorded in many ways
- We read the version of the story sent by our partner and compared it to ours, extracting valuable conclusions
- We implemented the mathematical activities proposed by our partner
- We prepared three more activities relevant to the myth

We also:

- Arranged our classroom so as to exhibit our project's products (DHS corner, parents' pinboard)
- Updated our school's blog and the project's site on a regular basis

<http://dhs.splet.arnes.si/>

<https://blogs.sch.gr/18niprodou/>

- Had meetings with the parents of our students
- Informed the teaching community about our activities
- Invited students, scientists and artists to enrich our program
- Attended a mythology class in our nearby Elementary School
- Had a skype session with the teachers and children from Dobrna

... and much more....

Abroad, we:

- Took part with our partners in a coordination project meeting in Dobrna and in a learning-teaching-training event in Konjice
- Participated with two presentations in the Math Conference organized by the University of Maribor

As closing activities for this first year we prepared:

- a muppet show, which was performed in the classroom and shared on the internet
- a theatrical play, performed at the end of the school year in our school yard, for the parents and our guests

ΠΑΦΟΥ

For the current school year 2018-2019 our kindergarten has welcomed new students and we are looking forward to spreading around the secrets of our project and cooperating creatively with all of you!

THANK YOU FOR
YOUR ATTENTION!
