I live in Aspropirgos with my parents and my sister. My town has a long history just like my school. My city was inhabited in the 9th century BC and habitants were usually farmers. They had animals such us cows and they farmed their land.

My school was built in 1903. It was the first school in my town. My school used to be a prison for war prisoners.

I am looking forward to send me your letter to now about you.
