THE FLOWERS AROUND US INSPIRATIONS

POPOLI ZOE B2'

The flowers can connect different people, traditions and countries with a special way. All these flowers may not exist after some years, because of the pollution.

For the construction of the globe I used plastic gauze and a ball. Then I found from the internet the map of each continent , I printed them and I stick them to the ball.

After that, I searched and I found the national flower of each country and I stick them to the ball too.
