

Letter from Mrs Fantasy

STREAM

Dear littles friends,

I am so happy that you have joined me on this journey of exploration, and I would like to congratulate you for your wonderful creations this past month. This month we will be exploring the first letter of my name the **S -Science**. Are you ready for our journey to the land of science?

In the beginning my little scientists we will prepare our science IDs , which you can print [here](#) and stick in your ID a picture with famous scientist hairstyle. Create the famous scientist hairstyle with a science experiment for static electricity like [here](#). Create a collage with ID cards and put [here](#).

At this point we are ready to enter to [my science lab](#) and each school will do a science experiment! Post a video of your experiment to [my science lab](#) so we can share our ideas with our partners.

Then each school will write 2 or 3 sentences ([here](#)) in which we will present our experiments like an adventure in a fairy tale and finally all schools together will create a collaborative story. The text of the collaborative story must be transferred to our digital book ([here](#)) and each school will be responsible for illustrating (drawing) the text from another school. Attention before drawing a part of the story you must first write in the third task of the board ([here](#)) the name of your school next to the text you want to illustrate.

Thank you for your cooperation and I look forward to seeing your creations in the land of Science.

With Love,
Mrs Fantasy ST(R)EAM
