#### Suggestions:

- 1.The project could focus on how water is essential for all living organisms – plants, animals, and humans.
- 2.Include research on the water cycle and how it sustains life on Earth.
- 3.Discuss the importance of conserving water and the consequences of water pollution.
- 4.Add visuals like charts, diagrams, and pictures showing the relationship between water and living beings.
- 5.Highlight simple steps people can take to save water in daily life.
6. Experiments with water and importance of it.

#### Expectations from my students:

1. To understand my students how deeply connected water is with every form of life.
2. To spread awareness about the importance of saving and protecting water resources.
- 3.To learn about the global issue of water scarcity and possible solutions.
4. To inspire responsible attitudes toward water usage among students and the community.
5. To appreciate water as not just a resource, but a foundation for life itself.

Tüm ortaklarla öğrenci etkileşimli etkinlikler yapılabilir.

Raise our awareness concerning water importance, expand on multicultural communication, develop digital skills and work on environmental research.

14- Please share your suggestions or expectations about the "Water and Life" project? ( "Su ve Yaşam" projesiyle ilgili öneri veya beklentilerinizi paylaşır mısınız? )

Water sustainability means managing water resources so that current and future generations can meet their needs for drinking, sanitation, and other vital uses without compromising the environment.

Güzel bir proje olması

ÖNEMİNİ KAVRATMAK

Is a very good subject to work

Quite interesting and beneficial project

Through group activities, students should understand the importance of water as a public good and ensure that it is managed properly. To help children understand that water scarcity is a phenomenon that planet Earth will face if it's overheating continues.

Gayet güzel bir proje

I expect this project to raise students' awareness about the importance of water and nature, and to support their learning through fun, creative, and meaningful activities.

I Hope everyone Will gain more awareness about water

To improve our digital, language & collaborative skills, to develop our responsibility & knowledge related to saving water & nature.

Suyun önemini kavratmak.

Güzel bir proje olmasını diliyorum
