

CHIOS OUR BEAUTIFUL ISLAND

Chios is an island which is situated in the north-east of Greece in the Aegean Sea. It is famous for its mastic, a product unique to Chios. It is a kind of gum coming from mastic trees in the south part of the island. We use it in Medicine, in cosmetics, in sweets and drinks. The most popular villages are Mesta and Pyrgi where you can walk through narrow streets and houses with peculiar patterns on the outside walls called "Shisto". Anabatos is a castle village built on top of rocks overlooking the west side of the island. Moreover, Kabos is a flat area in the south of the town of Chios full of orange, tangerine and lemon orchards. There you can see wonderful mansions called "archodica". There are also fantastic sandy beaches and pebble beaches which attract a lot of tourists every summer. The port of Chios is very big. The cafeterias and restaurants around the port are crowded. Chios is an island full of life all year round!

Οι μαθητές της ΣΤ1 τάξης στα πλαίσια του προγράμματος eTwinning εργάστηκαν ομαδικά και παρουσίασαν τον τόπο τους.
