Our class - Greece ΣΤ1

Hello everyone ! We are the ΣΤ1 class of the 2nd primary school of Gargalianoi, Greece! Our class has fourteen students, eight boys and six girls.

Our teacher is Mr. Alexis. He is smart and funny and he teaches us a lot of subjects. Our English teacher is Mrs . Giota. She is our teacher for three years now.

In our school we learn Maths, Language, History, Geography, Religion, Physical Education, English, German, French and Art. Every day we come to school at 8 o'clock. We've got six hours of lessons and four breaks.

We don't have a school canteen so we bring our food from our houses. Some of our favorite games are running and chasing numbers. This is our last year in this school before we leave for high school. We feel excited, happy and nervous for this change on our lives.

Our class - Greece ΣΤ2

Hi! We are the ΣΤ2 of the 6th grade, 2nd primary school of Gargalianoi, Messinia. In our class there are 15 children, 7 boys and 8 girls. We are 11-12 years old. These days we are fewer because some of our classmates are sick. We miss them very much!

School starts at 8.15 and finishes at 1.15. Some students stay in the All day program that finishes at 4pm. But this is not for everyone. Our teacher is Mrs. Aggeliki. She teaches us the most of the school subjects. She is very kind but she gives us a lot of homework. Some of our favourite subjects are English, Language, Maths and of course we love Physical Education! The subject that we dislike is Social and Political Citizenship.

In our free time we enjoy doing sports like playing basketball, football, volleyball, gymnastics. Other things we do in our free time are music lessons, spending time on our computers for things such as playing video games, scrolling, watching Tik Tok videos and speaking to our friends. We also go out with our friends during the weekend or we meet at each other's houses. That's all for now. We are waiting for your news!

Our town is a very interesting place. In the middle of the town there is the central square with coffee shops around it. We often go there at the weekends to have fun. Near the central square there is a park, with a big library on it. This is the place where our public library is. In the library we have drawing and music lessons. There are two primary schools and one high school here. Also, there are two playgrounds where kids meet and play every day. On the other side of Gargalianoi there is a sports centre. We do a lot of sports there. Some of them are basketball, volleyball and tennis. Some teams are sometimes playing matches there. Another beautiful place of our town is named touristiko. The view there is AMAZING.

Conclusions

Greece - We enjoyed this experience because we learnt about the life in your countries. We liked your towns a lot! They were very beautiful. We appreciated the cultural information that we earned from that project. Goodbye from Greece! Have a nice summer!!!

Italy -The students liked working in groups and were very motivated because they wanted to share information. We loved the photos and the descriptions, they helped us to learn new things about our new European friends! We liked this project very much: it was a way to get to know each other and we discussed similarities and differences.

Portugal - We loved to learn about new cultures. We particularly liked your surnames and the fact that we all go to the cafe often.

This project was different and fun. We enjoyed the experience and would like to do it again!
