

# DIFFERENT BUT TOGETHER

*A Galaxy Story of Friendship*

e Twinning

## Project Teachers

This international collaborative book was prepared as a student product under the guidance and leadership of the following teachers from different European countries:

Özge Saray, İlayda Açıklalın, Fatih Özbakır, Maria Biarge Escriche, Sara Calvo Castel, Diego Sanz Cardiel, Smaranda Anisia, Carmen Gabriela Minulescu, Laura Dobre, Narcisa Ionela Bîrloiu, Foteini Tsigka.

This book has been created through the active participation of students, under the mentorship and coordination of the teachers listed above.

## **Different but Together**

**We may speak different languages, live in different countries, and grow up in different cultures, yet we share the same feelings, values, and hopes.**

**This story was written by children who believe that differences make us stronger and that being together makes us better.**

**Through empathy, kindness, and cooperation, they discovered that *being different is beautiful—and being together is powerful.* Welcome to a story where every difference matters and every voice belongs.**

**Different  
but  
Together!**

# HELLOO!!!!

My name is BLUE . I am a small planet floating quietly in space. Around me, there are many other planets, and all of them are different. Some are bright, some are dark, and some are very far away. I watch them from a distance and think a lot. Being different sometimes makes me feel curious, sometimes a little unsure. I wonder if differences always keep us apart, or if they can bring us closer. I do not know the answer yet, but I feel that something new may happen soon...

**But one day a meteorite came very fast.**

**-BLUE: What is that?**

**-ANOTHER PLANET: I think it's a meteorite.**

**-BLUE: I don't think so.**

**The meteorite crashes.**

**-ALL THE PLANETS: Ahhhhhhhhhh!!!!**

**-NARRATOR: The planets wake up but this is not a meteorite.**

**-BLUE: This is not a meteorite. It's another planet! Wow! It's so strange.**

**-THE PLANET: Hello!**

**-BLUE: I think that this planet is so kind.**

But one day a meteorite came very fast.

What is that?

I think it is a meteorite

I don't think so

The meteorite crashes.

Aaahhh

This is not a meteorite, it is another planet. Wow! It's so strange!

Hello!

I think that this planet is so kind

The planets wake up but this is not a meteorite.

**PLANET:** I am very happy to meet you! I have been looking for someone friendly in this galaxy for a long time

**BLUE:** You are exactly what I wanted to meet. A planet eager for new friends and adventures!

And through the great galaxy the adventure of the two planets begins. Together they are braver, more confident and so they set off to discover what they did not dare to explore alone until now.

**BLUE:** Wow! How wonderful it is to travel with a friend!

So, Blue and the Planet glided through space. They admired the stars and had fun wandering around when Blue realised that he didn't know the name of his new friend.

**BLUE:** What's your name, my friend?

**PLANET:** My name is RAINBOW.

**BLUE:** Wow! What a beautiful name!

But suddenly, there was a new challenge for the two friends. They met another planet on their way, RED was his name.

**RED:** Hello! I am bigger than you and I want to be your leader and guide you.

**BLUE:** How irritating! We don't need a boss. I will call Green, which is a strong planet so that we can throw Red out of the galaxy!

**Greeeennnn!!!**

And so it happens and Green comes closer.

**RAINBOW:** Calm down! We just need to tell Red that we are different but we can be together in harmony too. Red!!!

**RED:** Yes???

**RAINBOW:** We are all planets, right?

**RED:** Yes, ...

**RAINBOW:** And we all live in space ...

**RED:** Right!

**RAINBOW:** So, let's all be together without any quarrel.

**GREEN:** Exactly! We are not the same and that makes us unique! We all make space more beautiful!

**RED:** Well, can I be your friend, then?

**RAINBOW, BLUE and GREEN (in one voice):** Of course!

And they all continued their journey calmly and happily... Suddenly, space had become more colourful!

Suddenly, a meteor fell right into the middle of space. Yes, it was a real meteor!

Rainbow, Blue, and Green looked at each other. They thought a new friend had arrived, but it wasn't. They didn't know what to do.

At that moment,

**BLUE:** Dear friends, where is Red?

**GREEN:** He was just with us.

**RAINBOW:** Oh no! Red is lost.

They all started looking for Red. They were very scared that something had happened to Red. On the way, they met someone. This person they met was Orange. The three friends introduced themselves to Orange and told him they could be friends.

After becoming friends with Orange, they told him about the meteor. At that moment,

**GREEN:** Orange, we have a friend. His name is Red. We lost him after the meteor fell. When we first met, we didn't get along with Red, but then we grew very fond of him. Now we want to find our friend whom we love so much. We are very strong and very happy when we are together. We can only make this space beautiful when we are all together. Can you help us?

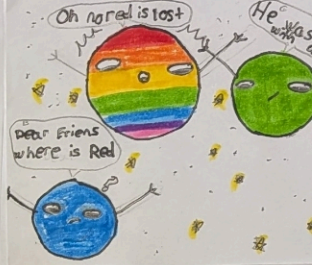

Suddenly, a meteor fell right in the middle of space. yes, it was a real meteor!

all started looking for Red. they were very scared that something had happened to Red. on the way they met that there friends introduced themselves to orange they friends could

G Orange we have a friend His name is Red we lost him after meteor fell what we first met we didn't get along with Red but then we grew very fond of him. Now we want to find our friends whom we love so much we are very sad and very hard when we are together we can only make this space better when we are all together. Can you help us?

After becoming friends with them they told him about the meteor.

Orange looked at them kindly.

**ORANGE:** Of course, I will help you.

Blue, Rainbow and Green felt hopeful. Together, they continued searching for Red.

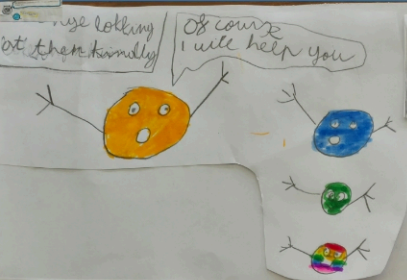

Suddenly, they heard a strange laugh. In front of them, a huge Black Hole appeared.

**BLUE:** Did you swallow Red?

**BLACK HOLE:** Yes...Because I look dark and scary, nobody wants to be my friend. So I took Red with me so I wouldn't feel lonely.

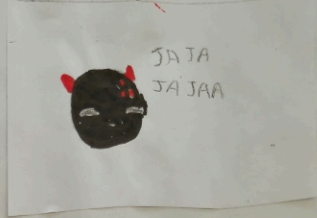

The Black Hole swallowed Orange too, but it dropped a shining golden key.

**BLUE:** Maybe this key can save them!

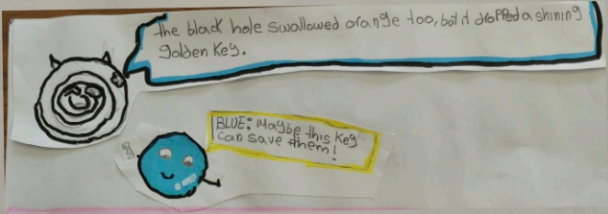

BLUE, RAINBOW AND GREEN FELT HOPEFUL TOGETHER THEY CONTINUED SEARCHING FOR RED

Suddenly they heard a strange laugh. In front of them a huge Black hole appeared.

Blue: But you said you're honest in to

At that moment, a strong electric wave passed through them. Blue could teleport. Green became very strong. Rainbow could turn invisible.

They worked together. Blue teleported near the Black Hole. Green stopped it. Invisible Rainbow used the key.

A bright light filled space – and Red and Orange were free!

But Orange looked quiet.

**ORANGE:** When the meteor hit, I changed. I was afraid you wouldn't accept me.

An old planet appeared. It was Sage Purple.

**SAGE PURPLE:** Sometimes change helps us grow.

**RAINBOW:** We are different, and that makes us stronger together.

**ORANGE:** There is a dangerous asteroid passage ahead. But I know someone who can help us. His name is Gold.

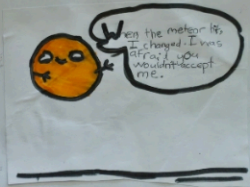

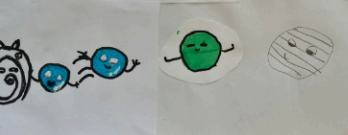

They found Gold, the bright star. With his light, they crossed the asteroid passage safely.

Red was stronger now. Blue's tears fell again – but this time from happiness.

They smiled.

At that moment, a storm of electric waves passed through them.  
Blue could teleport. Green was silent. Rainbow could turn invisible.

He worked together. Blue teleported near the Black hole. Green  
turned invisible. Rainbow used the keys.

An old planet appeared. It was Sage Purple.

They found Gold, the bright star. With his light, they crossed the asteroid passage safely.

Red was stronger now. Blue's tears fell again – but this time from happiness. They smiled.

But suddenly, Gold's light began to flicker.

A huge shadow covered the sky. The stars slowly started to disappear.

**GREEN:** What is happening?

**SAGE PURPLE:** “The balance of light is breaking...”

Colours began to fade.

**RAINBOW:** If the colours disappear, we will lose our powers!

**BLUE:** One of us must go to the heart of the galaxy...”

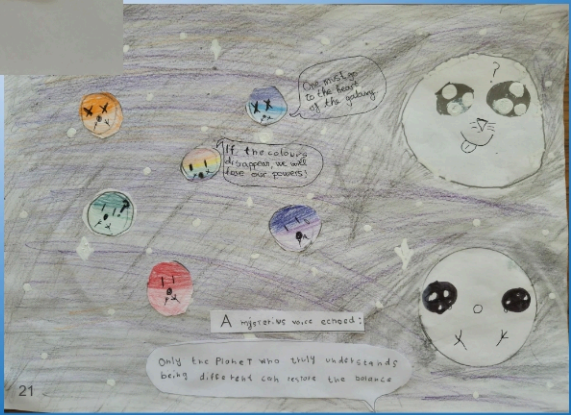

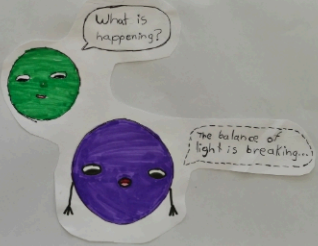

A mysterious voice echoed:

“Only the planet who truly understands being different can restore the balance...”

they found Gold, the bright star. With his light, they crossed the asteroid.

But suddenly, Gold's light began to flicker.

The planets are in a dark part of space. Suddenly, a bright pink planet appears.

**PINK:** (Looking brave) Don't be afraid! If you don't let my friends go, I will send you flying!

Sage Purple gathers everyone in a circle. They are all glowing.

**SAGE PURPLE:** I have a good idea. Everybody has a power!

**SAGE PURPLE:** If we go to the heart of the galaxy together, we can win!

**EVERYBODY:** Yes!!! Let's go!

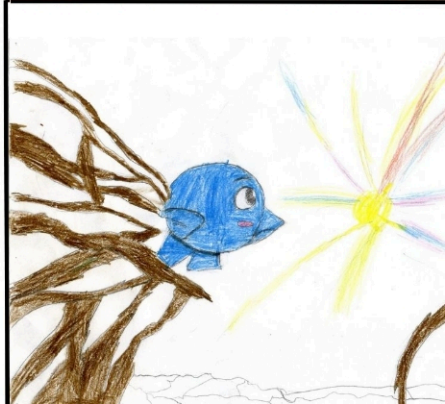

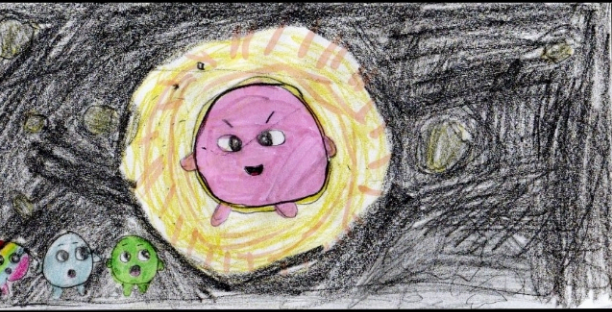

The Black Hole tries to grab Blue, but the others hold Blue's hand.

**NARRATOR:** The Black Hole tried to eat Blue.

**BLUE:** Help me! I am in the stomach of this hole!

**ORANGE:** Don't let go! Come Purple, Blue, and Green!

**NARRATOR:** Together, their powers were stronger than the darkness.

**O străfulgerare gigantică de lumină. Toate planetele sunt în „Inima Galaxiei”. Culoarele revin.**

**NARATOR:** Au ajuns în inima galaxiei. Au văzut că în trecut existau planete violente, dar acum sunt o echipă.

**ALBASTRU:** Diferențele noastre sunt puterea noastră!

Toate planetele (albastră, roșie, verde, curcubeu, portocaliu, roz și aurie) stau pe o pătură spațială mare, la un picnic.

**NARATOR:** Culoarele s-au întors și toată lumea a fost foarte fericită.

**VERDE:** Uite! Planeta are aceeași culoare ca mâncarea!

**NARATOR:** Au avut un picnic spațial cu hamburgeri și pizza.

**TOATE PLANETELE:** Diferite, dar împreună!

**NARRATOR:** *Happy, at the space picnic, they discussed what they could do to stop being pulled into the black hole.*

**RAINBOW:** *Do you know how I was formed?*

**RED:** *By breaking down sunlight.*

**BLUE:** *Wait, I just realized what we can do! If all our colors overlap, white light is formed.*

**NARRATOR:** *And so they realized that only together could they save themselves. The white light enhanced by GOLD and PINK would repel the black hole.*

**ORANGE:** *First we need to find YELLOW and INDIGO.*

**SAGE PURPLE:** *I think I have an idea where to find INDIGO. I'm taking Red and Blue with me.*

**RAINBOW:** *Does anyone know anything about YELLOW?*

**GOLD:** *I'll look for YELLOW...*

**GREEN:** *Then let's get going....*

**NARRATOR:** As the groups split up, determination filled the air. Each color knew their mission was vital.

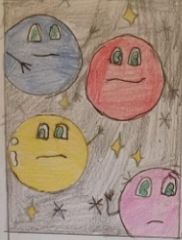

**INDIGO:** (appearing faintly in the distance) I've been waiting... I knew you'd come, Red and Blue.

**RED:** Then join us, Indigo! Together we'll strengthen the spectrum.

**YELLOW:** (calling from above) Don't worry, I'm here! I was shining through the clouds, guiding you all along.

**PINK:** With Yellow and Indigo found, our light will finally be complete. Let's unite before the black hole grows stronger!

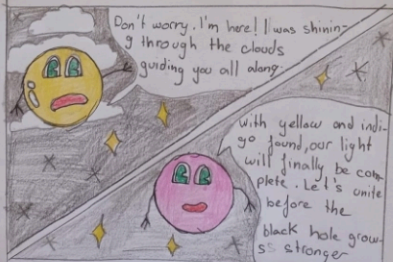

Narrator: As the groups split up, determination filled the air. Each color knew their mission was vital!

I've been waiting... I knew you'd come, Red and Blue

Then join us, Indigo! Together we'll strengthen the Spectrum.

Don't worry. I'm here! I was shining through the clouds guiding you all along.

With yellow and indigo found, our light will finally be complete. Let's unite before the black hole grows stronger.

**NARATOR:** După ce lumina albă a salvat galaxia, totul sa calmat din nou. Planetele pluteau încet, privind stelele strălucind mai tare decât înainte.

**ALBASTRU :** Am reușit... dar simt că galaxia încă se schimbă.

**CURCUBEU:** Da. Lumina nu a oprit doar Gaura Neagră. A creat ceva nou.

Deodată, în jurul lor au apărut niște scânteii argintii, dansând ca niște steluțe.

**AUR :** Acestea sunt Semițe Stelare. Apar atunci când armonia este restabilită.

**ROZ :** Poate că au nevoie de ajutorul nostru ca să crească.

**NARATOR :** Planetele au urmat scânteile strălucitoare și au descoperit mici planete gri ascunse în spatele asteroizilor sparte.

**VERDE:** De ce te ascunzi?

**PLANETA DE ARGINTIE:** Ne-am pierdut culorile de mult. Am crezut că nu aparținem nicăieri.

**ALBASTRU:** Și noi eram diferiți. Dar împreună ne-am găsit lumina.

**GALBEN:** Vino cu noi! Nicio planetă nu ar trebui să se simtă singură.

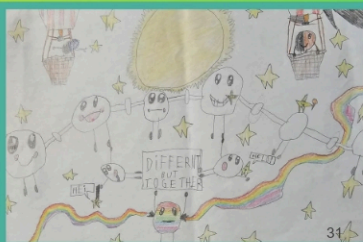

**NARATOR:** Planetele au format din nou un cerc. Încet, planetele gri au început să strălucească în culori noi și blânde.

**INDIGO :** Uite! Se nasc stele noi!

**ROȘU:** Galaxia este mai luminoasă pentru că am rămas împreună.

**TOATE PLANETELE :** Diferite... dar împreună, pentru totdeauna!

**NARATOR :** Și călătoria lor a continuat, aducând lumină oriunde o culoare pălea și prietenie oriunde cineva se simțea singur.
