

### Τρίτη δραστηριότητα e-twinning

Στην τρίτη φάση του προγράμματος, ζητήθηκε από όλους τους συμμετέχοντες να παρουσιάσουν τον αγαπημένο τους ήρωα, έναν άνθρωπο που θαυμάζουν προσωπικά ή αποτελεί εξέχουσα προσωπικότητα στη χώρα τους. Το ψηφιακό εργαλείο που χρησιμοποιήθηκε για την παρουσίαση των εργασιών ήταν το canva και η εξοικείωση των μαθητών μας με τη συγκεκριμένη εφαρμογή έγινε στο μάθημα της πληροφορικής. Τα παιδιά είχαν την ευκαιρία να ενεργοποιήσουν τις γνώσεις τους τόσο στην χρήση της αγγλικής γλώσσας όσο και στην χρήση νέων τεχνολογιών (δημιουργία αφίσας) και το αποτέλεσμα της εργασίας τους ήταν εξαιρετικό. Το ενδιαφέρον, βέβαια, ανέβηκε κατακόρυφα, όταν παρουσιάστηκαν στους μαθητές μας οι ήρωες των παιδιών των άλλων χωρών και συνειδητοποίησαν ότι γνώριζαν και θαύμαζαν αρκετούς από αυτούς (π.χ. από το χώρο του αθλητισμού και της μουσικής). Ενδεικτικά, παρατίθενται έργα των μαθητών του σχολείου μας:

My Hero is...  
JOHN KAPODISTRIAS

Informations :

Count Ioannis Capodistrias was the first Governor of Greece, Minister for Foreign Affairs of the Russian Empire and a statesman of great importance in European history of the early 19th century.

He was born in Corfu, where he began his political career, in the Ionian Islands. He entered the Russian diplomatic service and personally contributed to the shaping of modern Switzerland. He was sworn in as first Governor of Greece in 1828 and dedicated himself to laying the foundations of a modern European state. He met with much resistance to his work as Governor, which ultimately led to his assassination, while he was a sitting head of state, in Nafplio in 1831. His grave is located in his homeland of Corfu, at the Platytera Monastery.

# MARIE CURIE

**01** Marie Curie is born November 7, 1867 Polish but naturalized French. She was a physicist and a chemist. She is also the first woman to become a professor at the University of Paris and the first woman to receive two Nobel Prizes in science. Her big, well-known discovery is radio energy. Her last breath was on July 4, 1934.

**02** I admire her because without her achievement, i.e. the discovery of radio energy, medicine would not be the X-ray room that has helped many doctors in their work. Also we would not be able to enjoy technology etc.

Hello, this is
