### Summary Report

School activities held in 2<sup>nd</sup> Experimental Lyceum (Highschool) of Kilkis during the Erasmus+ mobility of Zinca College Highschool, Pitesti Rumania

The mobility took place during the school week 16/02/2026 to 20/02/2026, as deriving from the **Erasmus+ Accreditation 2020-1-R001-KA120-SCH-000095528 agreement** signed by the participating school units.

Current document aims to report over the educational activities that were offered to the 10 students of age 16-17 years old and the 2 educators, Aida Mihaela GRECU (English language teacher & coordinator of the international project) and Aurel Badita (Physics Educator) from the visiting school.

Besides the unique educational and social experiences that students and teacher in our school gained thanks to this cooperation, reflecting over the mobility project's implementation we first of all need to highlight a series of thanks and congratulations to...:

- The teachers in our school who undertook intercultural teaching classes of innovative approaches, nevertheless having to address classes with 35 students, as the teaching was offered maintaining our school's timetable and including the 10+2 visitors in our daily program.
- The teachers of the 2<sup>nd</sup> Experimental Junior Highschool of Kilkis who supported the project by offering some parallel activities.
- Mrs. Iliadou Tatiana of "Epimorfotiki Kilkis" for her offering this networking proposal to our school, for her offering of individual souvenirs with the toponym "Kilkis" to our visitors and for her very important support over an emergency issue that arose with our visitors' transportation vehicle.
- The Board Members of and the dance-educator (Mr Konstantinos Nikolaidis) of the Pontian Union of Kilkis "the Argonaftes", for their hospitality and opportunity for participation of our visitors in the dance rehearsal in the afternoon of Wednesday the 18<sup>th</sup> February.
- Our colleagues Aida Mihaela GRECU and Aurel Badita for their warm attitude, their discreet coexistence as teachers in our school, and the ample amount of presents they offered us.

The most heartfelt gratitude and appreciation of all involved adults are though expressed for:

- The students in our school who responsibly, with polite attitude and positive acceptance mood, prepared remarkable activities and resources, followed a demanding weekly program and thus achieved to practice the ancient Greek virtue of hospitality, building friendships with the students of Zinca College. It is important to mention that a considerable amount of the presentations and administrative work was taken care of and implemented by our student Manolis Lazaridis, who collaborated perfectly with the schoolmates who were involved.
- the students of Zinca College, Pitesti Romania, for their friendly and open-hearted behavior! We all admired also their communication and cooperation skills and the marvelous prompts they expressed to thank us.

We hope that these noble humanitarian ideals and friendships that were cultivated, will always accompany the students in the rest of their lives and daily practices.

Activity program as designed and implemented, with some indicative photographic material, follows:

• 12:00 Farewell moments ...

Anna-Maria Panagiotidou  
MSc in Computers and Systems Analysis  
School deputy b' at 2<sup>nd</sup> Experimental Highschool of Kilkis  
Coordinator of the European projects and networking

Dear Aikaterini,

I'm giving myself the permission of writing to you in a familiar style because this is the feeling you generated with your kindness, careful organization and openness to cooperate with "Linca Bolesai" National College in the framework of ERASMUS + programme on such important issues as STEM and human rights.

On behalf of our entire group, would like to express our heartfelt thanks for the warm welcome and outstanding hospitality you offered us during our Erasmus + student mobility at the 2<sup>nd</sup> Experimental High School in Kilkis, Greece.

Thank you!

Dear Anna-Maria,

Many years ago, I realised I had a soft spot for angels. These days, I've discovered the real meaning of it all.

Angels are all around us. They show up in the most difficult moments to offer the right solution for an unexpected issue. Angels are always there behind the scenes and conduct each and every step of "the orchestra performance" as an exquisite conductor on an impressive stage.

Our dear guardian Angel-Anna-Maria, thank you for being such an incredible host! We truly appreciate the entire organization of this students' exchange, your constant and active presence, your support during the ERASMUS + mobility focusing on STEM and human rights.

Thank you to everyone in your team, teachers and students included!
