

Letter from Mrs Fantasy

April

Maths

My dear little friends,

How are you? I hope you have a great time!! I've just got back from the land of Art and I saw your fantastic works.

It's time for the sixth and final letter of my name. This is the letter **M** from the land of Mathematics. Are you ready for your last missions to help me and write stories? Well!!!...

Do you like numbers? Do you have a strong memory? Let's begin.....

Your **1st mission** is a Robotic Storytelling Activity with cards from the fairytale "A Very Hungry Caterpillar". But first of all, you have to read this fairytale [here](#). Then, each school will have to draw cards with the fruits or foods from the fairytale and place them on the robotic map and recreate a storytelling activity. Finally, upload your photo to [Padlet](#)

Your **2nd mission** is to create an electronic book-calculator with couplet poems on [Genially](#). More specifically, a collaborative book of poems and paintings will be created which has the numbers in sequence. One school will create a couplet poem with the number it has chosen and the other school will draw it.

Your **3rd mission** is a Mathematical game "The shape-card hunt with patterns". One school makes a pattern with leaves and shapes and the other school continues the pattern. Instructions and materials for the game [here](#). Please upload the patterns that will be created [here](#).

Also the **International Children's Book Day** is celebrated around the world on April 2nd. So you can create a collaborative poster with the help of AI. Each school writes a word related to books and fairytales [here](#) and then AI creates a poster.

Don't forget kids!! This year, we celebrate all of us Easter in April, so let's make a collaborative **Easter Card** using shapes this time. All schools can choose a word from [here](#) and then you draw it with shapes. When you finish your drawing, upload it [here](#). Finally we can print the collaborative card and give it to our dear friends.

I look forward to seeing your creations.

With love
Mrs Fantasy ST(R)EAM
