

My trip in UK

Before the trip I was very excited. I couldn't wait for this trip!

On the first day we went to the Bolton primary school. The students of that school presented us their school. Then, all the other countries did the same. We got out to play with the students of that school and the students of the other countries. Then a van got us back to *Center Parcs*, where we stayed.

On the second day we went to an old Village Museum and we saw how the life was at 1850 to 1950. We got into some old houses and into a dentist house. Then we got into an old bank! Then we ate ice cream and went back to *Center Parcs*. At the afternoon we went to the pool of *Center Parcs* where we had a great time.

On the third day we went to the lakes and then to a place like a garden but I really didn't understand what it was. At the afternoon we went to the lake of *Center Parcs* to see the zip line but they told us that it will be open on Saturday :(

On the fourth day we went again to the school to see a performance from the class three (year5, year6). Then we all danced and play. At the afternoon we got to the station, took a train and go to Manchester where we stayed in a hotel call Ibis Budget.

On sixth day we got to the center and then to the airport to take an airplane to take us back to Greece.

During my visit I learnt better English by hearing people.

That trip made me fill independent and amazed by their culture.

I had a very good time in England!!
