

Our trip was awesome!

We visited the school of the village Bolton, we visited museums and many many sights.

Before the trip I was very excited especially the last day before the flight.

During my trip I learned a lot of things for the environment and the English culture. I also learned and an English traditional dance that I enjoyed a lot.

In the school we saw a lot of different videos and plays from the students taught us how we should behave on earth.

This trip made me feel happy because I made new friendships with children from other countries.
