

3rd Kindergarten
OF
TRILOFOS-THESSALONIKI
Greece

Greece is situated in the southeast part of Europe, at the edge of the Balkan peninsula. It is surrounded by the Mediterranean sea on the west, east and south.

Geography of Greece

Olympus

Greece is a mountainous country as large and small mountains cover 80% of its territory.

The tallest mountain is Mount Olympus (3,000 m.) There was placed the home of Zeus and the other gods of the ancient Greeks

Geography of Greece

Olympus

Greece despite its small size (97th in the world) has one of the longest coastlines in the world (11th in the world).

This is partially due to the numerous islands (more than 1,000).

3rd Kindergarten of Trilofos

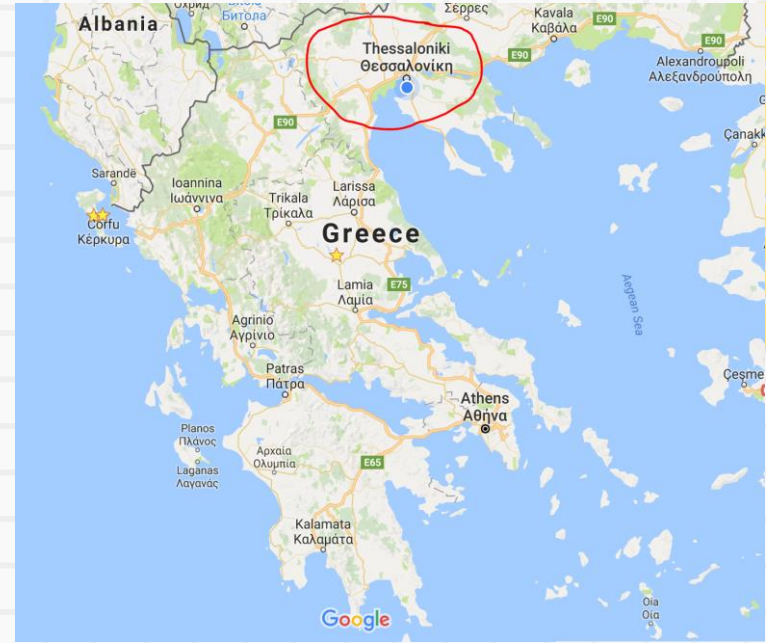

The 3rd Kindergarten of Trilofos is co-located with the 2nd Trilofos Primary School. It has its own entrance, independent from the entrance of the Elementary School, from which students arrive and leave.

Trilofos is located in northern Greece, 20 kilometers southeast of the center of Thessaloniki, the second most populous city in Greece, 6 kilometers east of Thermaikos gulf, It is built south of the International State Airport of Thessaloniki

SOME

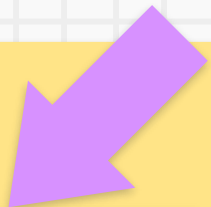

ACTIVITIES

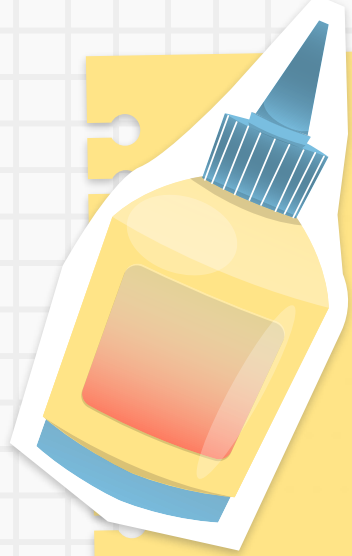

DAI

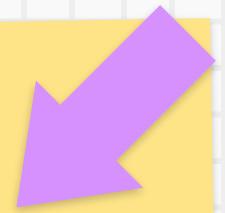

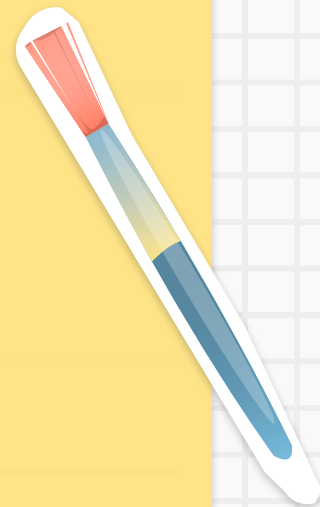

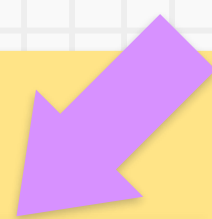

Participation of our school in the European Program Erasmus+KA209 - School Partnerships entitled "Difficult topics in good fun - education in the future" between schools and specifically, the Kindergarten Publiczne Przedszkole Nr 7 im. Pszczolki Mai w Pile from Poland, who also has the coordination, of the Escola Pla de Girona kindergarten from Spain and the 3rd Trilofos Kindergarten from Greece which will create the country November 2019 – November 2022 and the European Union a network of cooperation and of good practices.

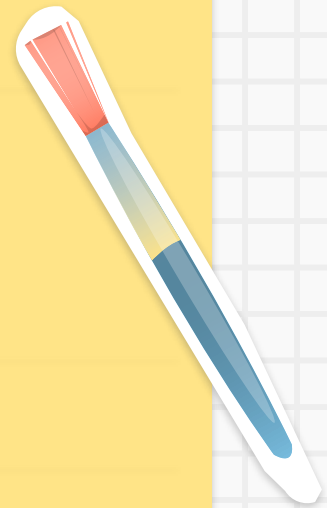

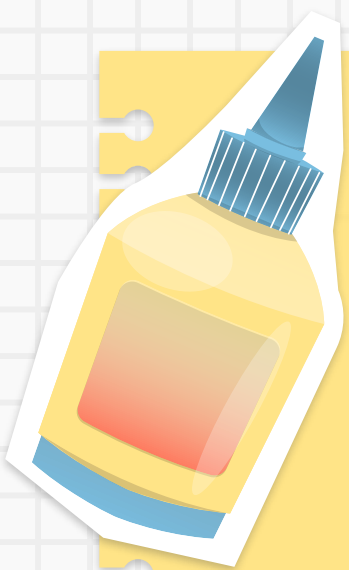

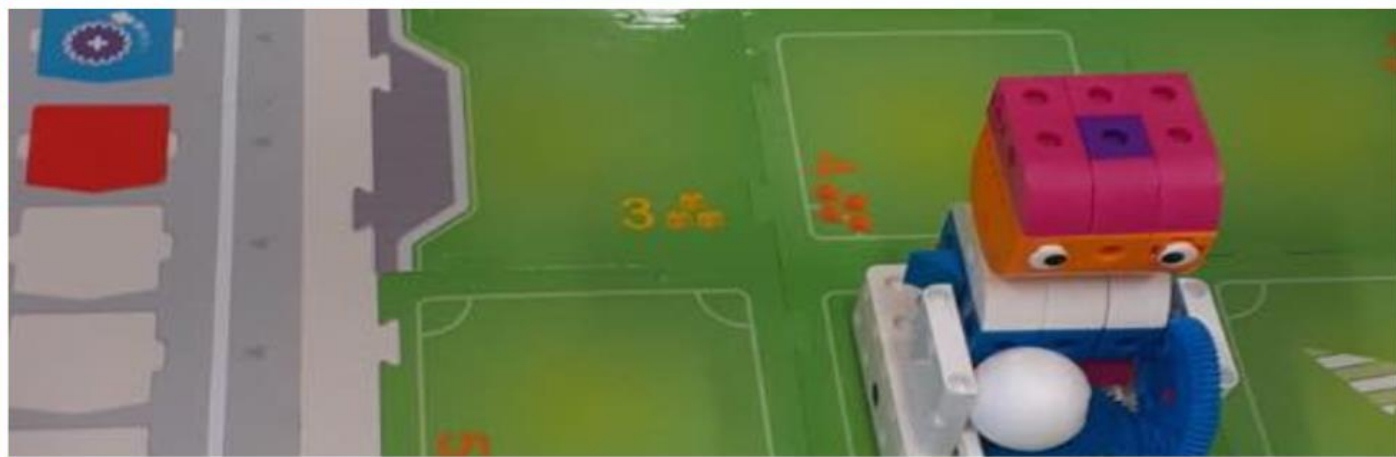

**the project will be awarded an innovation award at a ceremony to be held
in Brussels in early December**

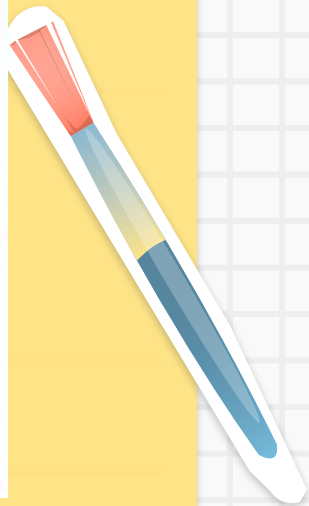

we have participated in many eTwinning projects related enviromental issues such as:

“Blue Planet”, “GREEN ENERGY”, “I love nature, I protect
the forest”, “Our forests, our life”

In the context of KA1 Erasmus+ project , we have created an eTwinning Project as part of dissemination“Marine Environment in the world of Preschoolers” that participated kindergartens from Turkey, Italy, Portugal and Greece.
