• Fill in the **details of the school** your child attends:

  ▪ School:

• Fill in the **student and the self-test information**

• **Print** the Covid-19 school card, or copy it to the **photocopy**, as before, with the code.

• In this way, the director of the school will know at all times that inside the school are only the persons (students, teachers / members, etc.) who meet the conditions of physical presence in the face-to-face school procedure.

• The child should **always have the school card in their bag**, either printed or handwritten with the code.

• If the above procedure is not followed, **the child will not be allowed to enter the school.**
