

The 4<sup>th</sup> primary school of Farsala participates from September 2020 to June 2022 in the European project Erasmus +. The coordinator school in Romania, for the implementation of the project, has chosen our school and schools from Estonia, Lithuania, and Turkey. The main theme of this project with the title «**Win-win conflict**» is classroom management. All the participants in total are about 300 teachers/pupils and 1500 observers. The particular theme of our school is the behavioral disorders.

Our **pedagogical team** consists of:

**Karageorgiou Aphrodite**, French teacher, responsible for the communication and the general organization of the project

**NtarayiannisIoannis**, primary school teacher, responsible for the internal organization of the project in the school

**DimitropoulosDimosthenis**, primary school teacher, responsible for the dissemination of the project

Support team: **Georgiou Chryssa**, English teacher, and **Haritoudi Martha**, music teacher

### **About Erasmus +**

Erasmus+ is the EU's programme to support education, training, youth and sport in Europe and facilitates the learning mobility opportunities for **students, education staff, trainees, apprentices, volunteers, youth workers** and **young people**.

The benefits for involved organisations include an increased capacity to operate at an international level, improved management methods, access to more funding opportunities and projects, increased ability to prepare, manage, and follow-up projects, as well as a more attractive portfolio of opportunities for learners and staff at participating organisations.

Key Action 2 is designed to develop the education, training, and youth sectors through activities such:

1. **Strategic partnerships** to support innovation in the sector as well as joint initiatives to promote cooperation, peer-learning, and the sharing of experience.
2. **Knowledge Alliances** to foster innovation in and through higher education together with businesses, and beyond, contributing to new approaches to teaching and learning, entrepreneurship in education, and the modernisation of higher education systems in Europe.

### **Innovation and good practices**

Opportunities for cooperation for innovation and the exchange of good practices are designed to modernise and reinforce education and training.

Teachers participating in these opportunities should benefit from new approaches to education and training, a more professional and capable professional environment within their organisation, and an increased capacity to work at an EU or international level.

For the above reasons, we consider the participation of our school in the Erasmus + program very positive and we hope to reap the maximum possible benefits for the school and our students from its implementation.
