## World Teachers' Day

We discussed with the children of the 6<sup>th</sup> grade the necessity and importance of teachers. Opinions such as teaching, encouragement, homework, mood improvement were arisen and translated in English. We spend half of our day with children and want the best for them. Happy World Teachers' Day and tell us something nice, if you want. It will make our day!

Nobody is perfect!

Help the others, the victims.

Be kind and polite!

Accept the differences!

Cyberbullying should STOP!

Ourselves matter the most!

Make yourself proud!

Don't laugh at anybody.

Choose light instead of darkness!

## Our Realgram

Respect, courtesy, truth, compassion are increasingly lost. Meanness, rudeness become the norm. In our own social network, "Realgram" we are honest, true and imperfect. Let us all try to become kinder, and children will follow us.

## We nailed it!

Our Idioms' corner. The students of 6<sup>th</sup> grade searched on Google for idioms in English. They learnt what an idiom is and how to google for educational purposes. It was a fun project where we combined education and technology.
