

THE TALE OF A LEAF
Project Calendar
2025-2026

Nr	The Activity	Description of the activity/web tools	Period of achievement	Deadline
1	OCTOBER- Meet and Nature stories - Students and teachers will get to know each other. - The project logo will be designed. - Nature stories hour with students: Stories about the environment and nature are read, then the children draw their own nature heroes. They say the names of these heroes in the online meeting. Each country draws a “hero-sheet” and brings it to life. The videos are uploaded to a common Padlet and each child leaves an audio comment (e.g. “Hello from...”) on another country’s work	ESEP Padlet Canva My posters Google meeting Animated Drawings Google Forms	01-10-2025	30-10-2025
2	NOVEMBER - Let's Get to Know the Creatures in Nature - Do we know the living things in nature? We are researching organisms that are beneficial to the soil. We will go on an environmental research trip. - Each country will choose an organism and create a	Canva Youtube ESEP Google meeting Chatter PIX	01-11-2025	30-11-2025

	model of it (using recycled materials). International “micro-experts”: Form small teams of 2 countries. Each team researches a common beneficial organism (e.g. earthworm) and prepares 1 common Canva slide (each country adds 1 image + 1 sentence in its language). We will present these organisms in an online meeting.			
3	DECEMBER — We are preparing the water collection unit.- “Colors of Nature” - We will prepare a simple unit to collect rainwater and snowmelt. We will ensure that the water is collected and stored. “Colors of Nature” calendar: Each country sends a photograph or painting of nature, and a shared calendar is created. 4	JANUARY-WE DESIGN TREES - We are researching trees. - We choose a tree. With the participation of our families, we design our own tree. Each country will have a tree. We can use any material we want.	Canva Power Point Vimeo Youtube ChatGPT Wordart Chatter PIX	01-01-2026	23-01-2026

	International “grove”: A common Canva slide per country with its tree. We join the slides into a common “grove”. The children “glue” WordArt-words-leaves (3 words/language). Each country will compose songs using artificial intelligence by writing lyrics for a song about nature. Our students will perform their nature songs in their own languages during an online meeting.	ESEP Google Meeting		
5	FEBRUARY - We make natural fertilizer. - We make compost fertilizer using organic materials found in nature. Transnational compost experiment: 2 countries–1 same type of bin. They fill out a common Google Form (what we put in, what it smells like, texture). At the end, compare photos & observations. - With the participation of our families, we design colorful wind roses. We display our wind roses in our school garden.	Canva Vimeo Youtube Power Point Video presentation	09-02-2026	27-02-2026
6	MARCH - We are preparing seed balls. - We are preparing seed balls with our students using seeds and soil. - We are doing online nature puzzles. We are preparing	Canva Power Point Vimeo Padlet Youtube	01-03-2026	30-03-2026

	shared word puzzles and environment-themed Kahoot games.	Google Forms Kahoot		
7	APRIL - We are planting our seed balls. • We are planting our seed balls in our garden or in pots. We are creating our own garden. • Team story: As a group, we are completing a nature-themed story in sequence and preparing a Nature book. • Nature letters: Sending nature-themed picture postcards to peers in different countries. • We discuss the postcards we prepared during the online meeting.
