

"Don't bully me, don't discriminate me, include me"

Erasmus Plus Project 2019-2022

Day devoted to people with disabilities 3rd December

Talks Debates

1st step

 We collected info about "Hyppokampos corporation"

A corporation that takes care of people with Disability, Kinetics of Magnesia that was founded in Volos in 2009 and is the only first class social-trade union body for people with disabilities and their families in the region of Thessaly. It currently has 110 regular and 50 helper members.

 Members of the Association become People with Disabilities (A.P.W.D), who have a disability rate proven by a health committee decision of 50% or more (for whatever reason) and reside in the Prefecture of Magnesia.

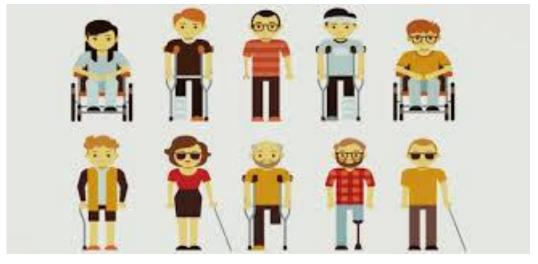

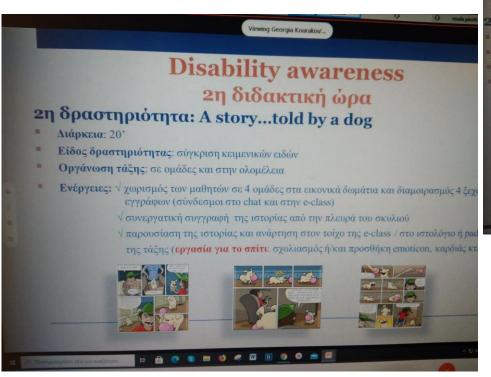

2nd step

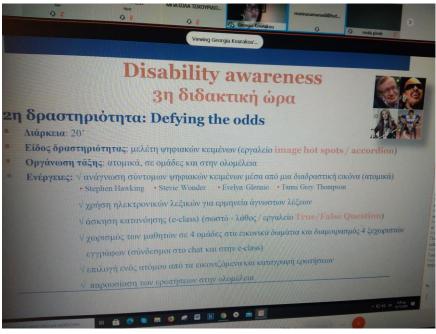

- We discussed in groups about the needs of P.W.D and the every day difficulties they face.
- We gave examples and talked about the precausions we must mind.

Attended a proposal with activities to enhance awareness

3rd step

 We invited to school a group of the corporation to present themselves and give us more details about their work.

- We asked many questions and found out solutions we could give to make their every day life in the city easier.
- We could not believe how many difficulties they face with things we do instictively and they cannot.

Conclusion

The **Hellenic Paralympic Committee** celebrates December 3, the International Day of Persons with Disabilities. A day that is a reminder of the importance that society should give to people with disabilities, but also the value of sports for these people.

28 years ago, the United Nations established December 3 as the International Day of People with Disabilities, in order to raise awareness of disability issues and to promote the rights and well-being in all aspects of political, social, economic and cultural life.

Thank you for your attention
