Together for a better Internet

The point is to make the internet a safer and better place for all, and especially for children and young people.

9 February 2021, we celebrated the 18th Safer Internet Day with actions taking place in our school even the pandemic time

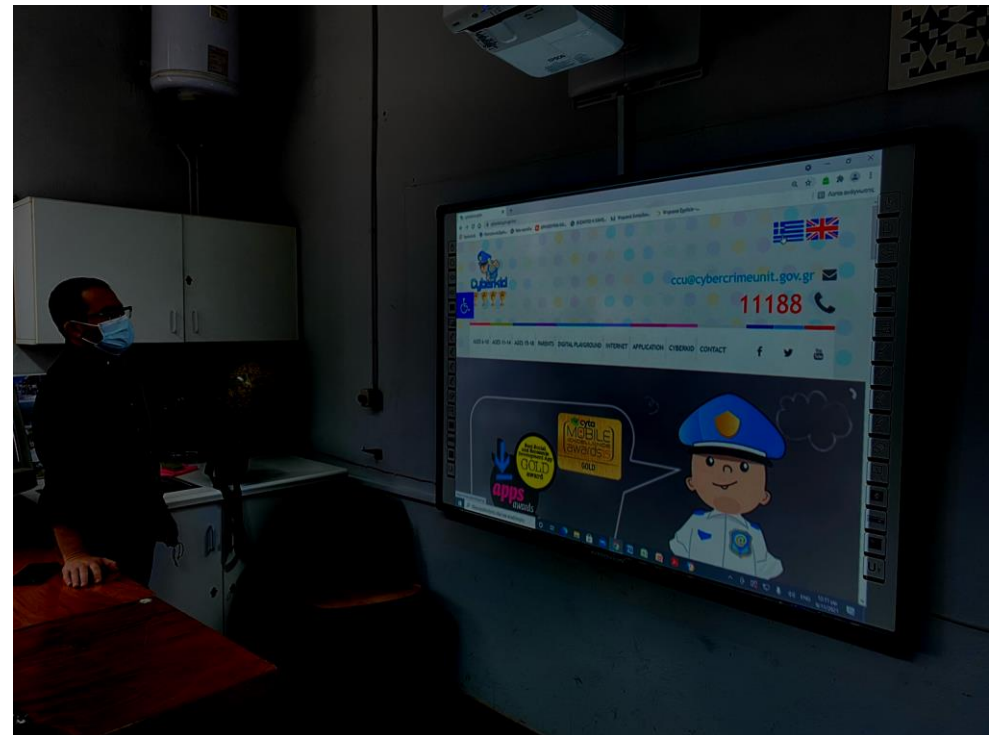

We invited the responsible from the police department for internet use Mr. Skondras who talked to children about the safe use of internet

We vote yes for internet but use it with safety

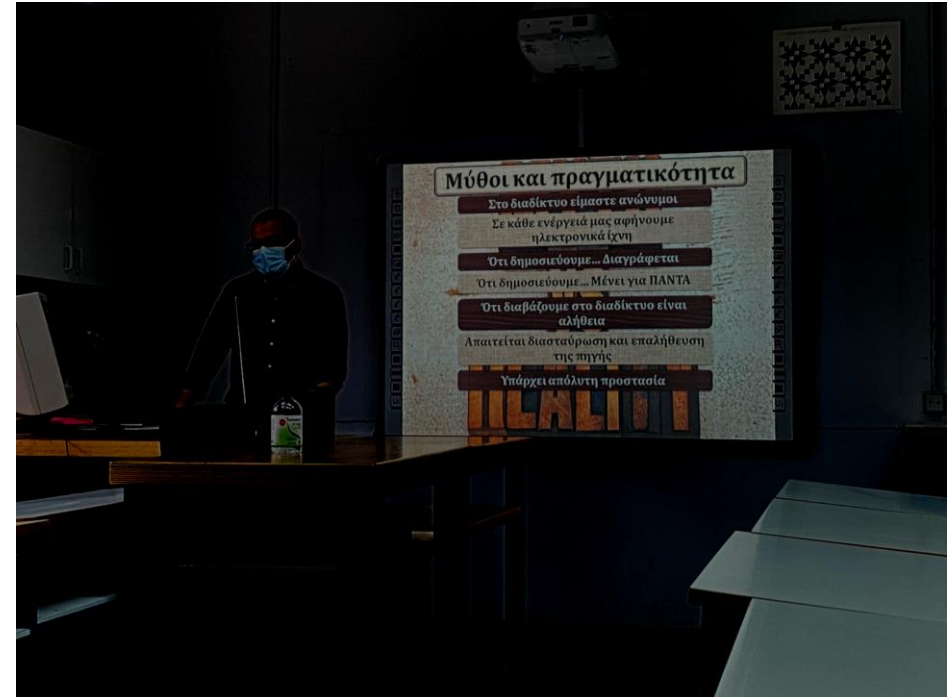

The presentation showed children ways to avoid threats , avoid taking risks when buying things and inform them about the line to use every time they feel threatened
