

F CLASS

DIGITAL NATIVES OR NOT

HOW DOES F CLASS USE THE INTERNET AND THE SMARTPHONE

In our class...

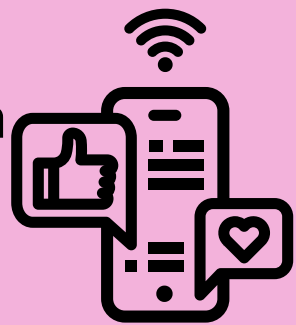

Some of us like playing **computer games**.

Most of us are **in our rooms** when we are online. There is **sometimes** an adult with us in the same room.

Almost everyone has got a **smartphone** and **more than one social media account**.

Almost **everyone** has got an **instant messaging application**. The most popular is Viber.

The most popular game is Brawlstars.

Most of us are in front of a screen for **three hours** on average **every day**.

Most of the students **chat** and **play games** when they are online.

If there was no internet one day, almost everyone would feel **sad**, but most of us would **go out** and play or **watch TV**.
