

I.C. ROSMINI IN ITALY

In our Institute there are four primary schools and two secondary schools.

We are the pupils of two primary schools:
Longone and Eupilio.

Longone school

Eupilio school

Italy is divided into 20 regions,
we are in Lombardia!

Here we are!
We live in the
North of Italy,
near Milano.

This is our flag!
It's green, white and red.

These are the most important monuments that you can see in the main Italian cities.

The most important monument in Lombardia is the Milano Cathedral.

Longone's fifth class

Every year we paint the windows of our classroom. This year we painted the International Space Station, the Solar System, an observatory and man on the Moon.

Eupilio's fifth class

We are seventeen excited, energetics and very curious kids; this year we started to know nature and biodiversity.

We adopted a tree and we took care of it. We planted flowers under it and we placed a tiny bird-house on its branches.

These are some typical birds that we could find in our zone.
