

CHRISTMAS...HO,HO,HO

And all started like that.....

CHRISTMAS CARD ALBUM

It is a project for preschools - Christmas cards exchange via internet. Students will make hand-made Christmas Cards with wishes in English and their native language. Additionally, each class will prepare short video of kids singing Christmas song or carol. Teachers will take pictures of Christmas cards and all materials will be collected in presentation "Christmas Card Album" to send it via internet.

As soon as we discussed this idea with our pupils, they got excited and they started making Christmas cards and by themselves and all together . Let's have a look!!!

- Drawing in white paper....

- Making cards with oil pastel
First we choose the Christmas pattern we want on our card

Then the colours

And we start to draw all around the pattern

When we do that.....

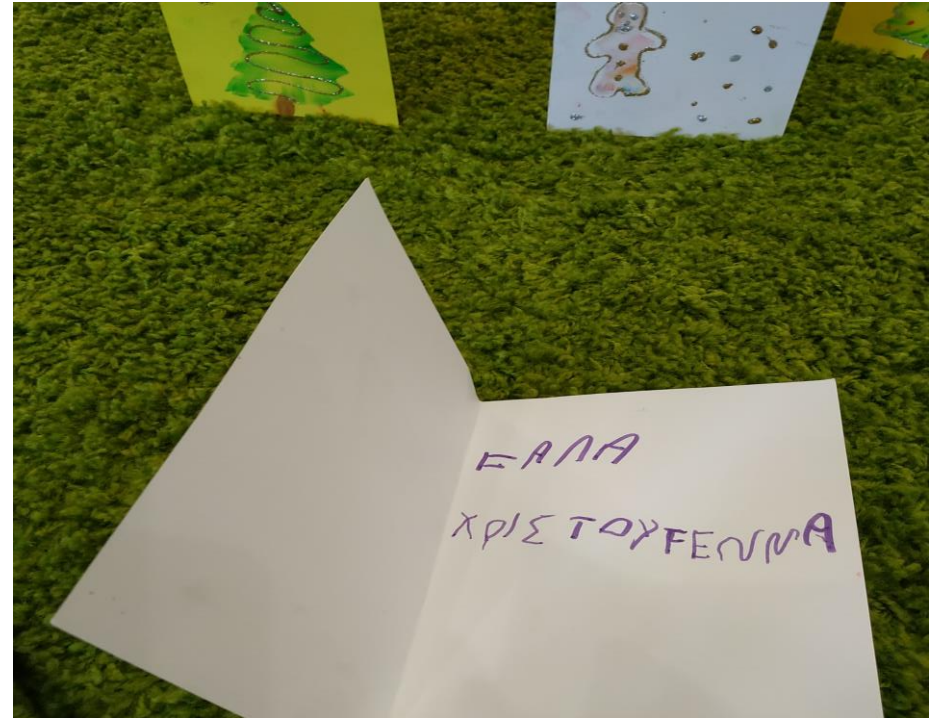

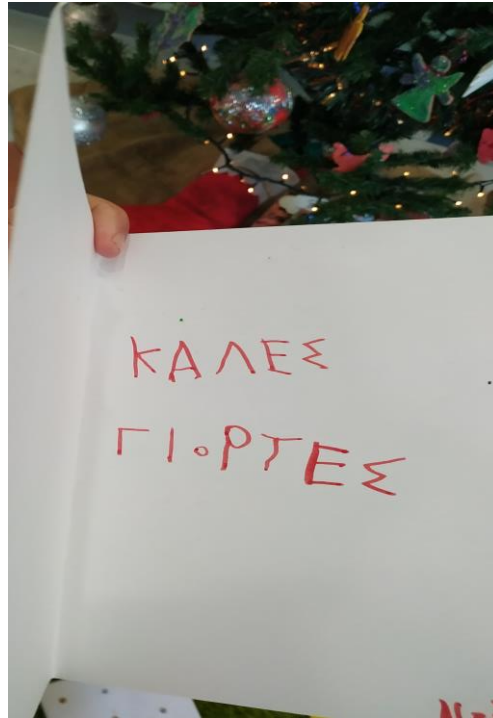

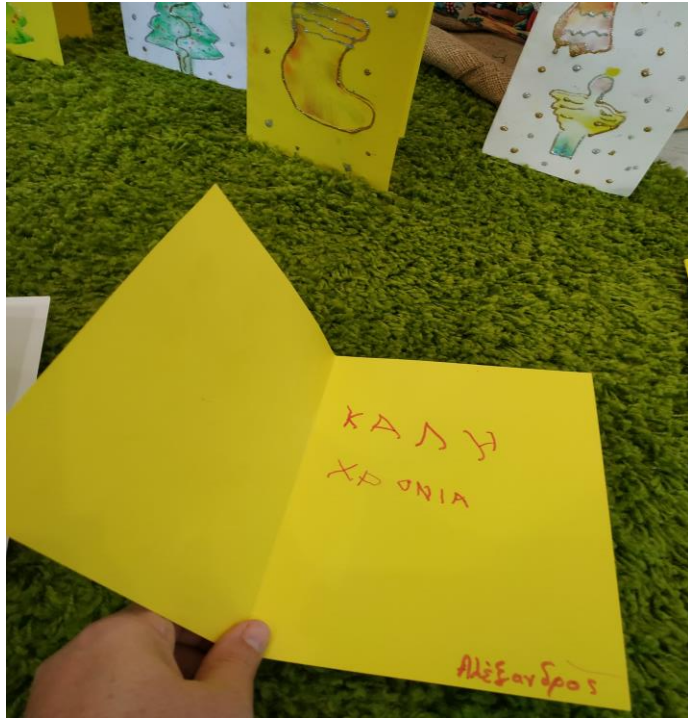

We draw the colour into the shape using our fingers!!!

Here we are and of course we wrote our wishes in our native Language

AND OUR WISHES...

And then we thought to make a card all together.....

Our Christmas Wreath!!!

Finally we read the story: 'The gifts of the lady who made blankets for the homeless', and we create our blanket with wishes for the whole world!!!
