

Reduce, reuse, recycle: love your planet!

Primary School of Chalkidona - Class E'1

5th June 2015

One day super kids saved the Earth one more time.

It was 5th June, the day when all the people celebrate the protection of the environment. Super kids woke up at 7:30 and they got ready for school. When they arrived at school something weird happened. All the kids started polluting the environment without reason.

Super kids decided that they should advise and inform kids about how to protect and save the Earth. They started with advice as the following: "you shouldn't litter, you should use both sides of paper when you write or print, you should turn off the light when you leave a room, you should turn off the tap when you brush your teeth, etc".

Super kids managed to change their schoolmates' opinion about the environment and from Earth 'haters' they became Earth 'lovers'.

"Recycling Kids"

One day for recycling

One day the recyclers' team went to the forest and found a lot of litter. In the beginning, they were afraid because they thought that the litter will fill the town. They gave out leaflets at school, shops and homes.

In this way, they gathered a lot of people in the forest. They tried to solve the problem of litter. Finally, they recycled and cleaned the forest. The forest and the town were safe. Team work did it!

"Recyclers"

Poems

The Earth
beautiful, blue, round
destroying, swimming, travelling
don't throw away rubbish
Recycle

"Super Girls"

Recycling is good
for me and you.
Don't throw rubbish
You can recycle to
save.

The environment will be dirty
unless you care.
The environment needs safety
from all of us and you.

"The heroes of the Earth"

How to make a robot from recyclable things.

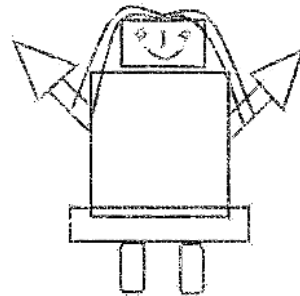

Materials

- ☺ an old notebook
- ☺ a carton box
- ☺ four rolls of kitchen paper
- ☺ plastic wires
- ☺ two plastic bottles
- ☺ two party hats
- ☺ two sticks
- ☺ sticking tape
- ☺ scissors

Take an old carton box. After that, take the top of the carton box and make it the basis of the robot. After that, take plastic wires and stick them on the notebook for hair. The notebook is the head of the robot. Then take two party hats and turn them into hands. After that, take 2 rolls of kitchen paper. Open two holes on both sides of the box and put the rolls in the holes. Then take two other rolls of kitchen paper to use as legs and open two holes on the basis of the robot. Finally cut two bottles for the legs and put them in the rolls as plastic shoes.
