

# Stray Animal Day

PRIMARY SCHOOL OF KATO SCHOLARI

# Stray animals day

World Stray Animals Day, celebrated annually on April 4th, is dedicated to increasing awareness of stray animals over the world and the problems they face; this day is purposely positioned 6 months from World Animals Day, celebrated on October 4th.

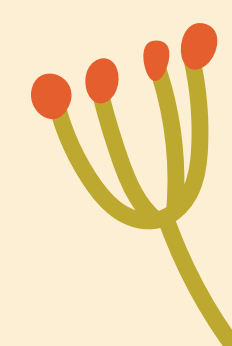

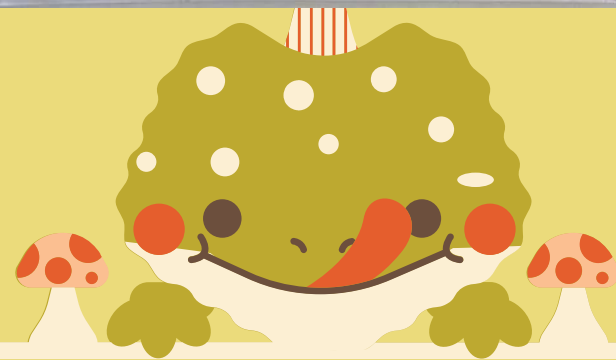

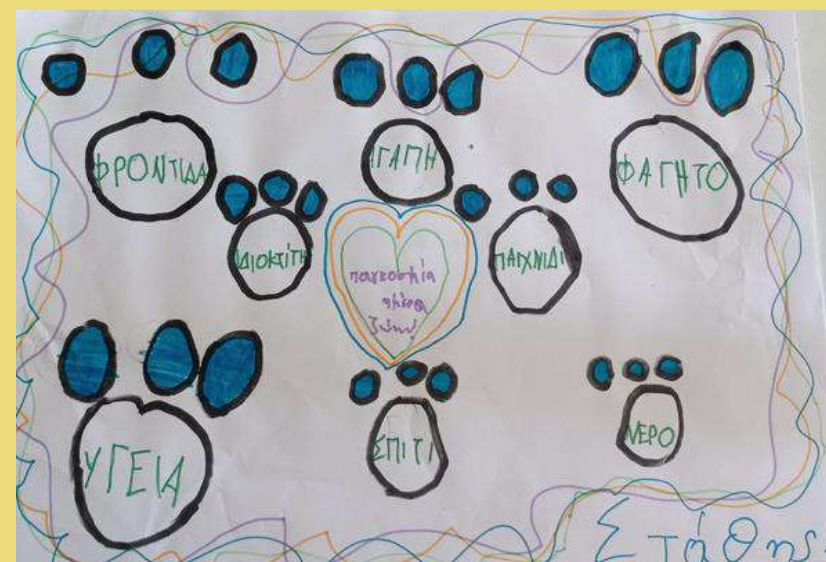

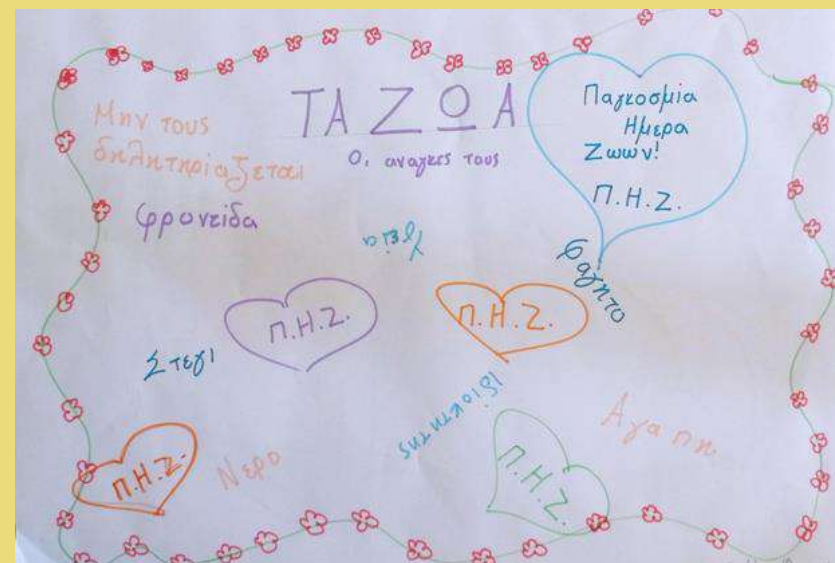

On April 4th we celebrated Stray Animals day at our school with students from all classes. After having insightful discussions over the importance of adoption and neutering and most importantly, the needs of animals, students took part in a number of various awareness raising activities.

We learned a lot and at the same time had lots of fun.

# WE CREATED POSTERS

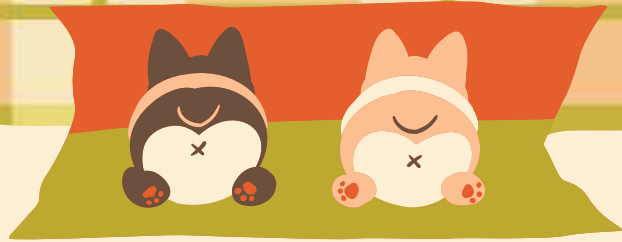

**We created BIGGER posters!**

# We played outdoor games pretending to be stray animals

It was great fun!
