

# OUR MUSEUMS

## LIMNI, EVOIA

*Our small town is located in the embrace of the North Evoian Gulf. With its narrow alleys, its neoclassical and traditional houses, Limni is one of the most picturesque places of our island. Limni, with this profound island atmosphere, hosts two important Museums that constitute the guardians of our cultural heritage! These are, the Museum of History and Folklore along with the Collection of Traditional Costumes of Andreas Peris.*

## The Museum of History and Folklore

The Museum of History and Folklore of Limni, has been in operation since 1993 situated in an elegant two storey mansion, a donation by Ms. Aikaterini Evaggelinou-Flokou, a citizen of Limni. The rich collection which is hosted in this museum has been brought there with a lot of passion and love, offered by the families of Limni. Furniture, culinary objects, tools, garments, photographs, hard to obtain objects in their time that local seafarers brought upon their return from their voyages, testimonies of history, adorn the rooms of the mansion and await for us in order

to travel back into past times, to meet days gone by, to redefine the present day...

### Collection of Traditional Costumes of Andreas Peris.

A unique Collection of Traditional Hellenic Costumes is hosted in the mansion owned by Andreas Papageorgiou Peris, also located in Limni. This valuable collection is the result of many years of research, knowledge and deep love on behalf of Mr. Peris, both for our region and its heritage. Authentic men and women traditional costumes, collected from every place throughout Greece, in their showcases, dazzle the visitors of the collection with their magnificent colours, their sophisticated designs, along with the time transcending jewelry. They exude the vigor of the Hellenic soul that, in the midst of adverse times, claimed back its freedom and conquered it.
