MOUNT PARNITHA is a lightly forested mountain range north of Athens, the highest on the peninsula of Attica, with an elevation of 1.413 m. Parnitha mountain has a warm Mediterranean climate with frequent snowfalls in winter and pleasant temperatures in summer.

VARIBOBI is a beautiful suburb of Athens. It is a friendly and rich city of about 1.950 inhabitants. It is located at the foothills of mount Parnitha. The Varibobi cliffs, northwest of the village, are a well-established rock climbing area.

Tour of **Varibobi**

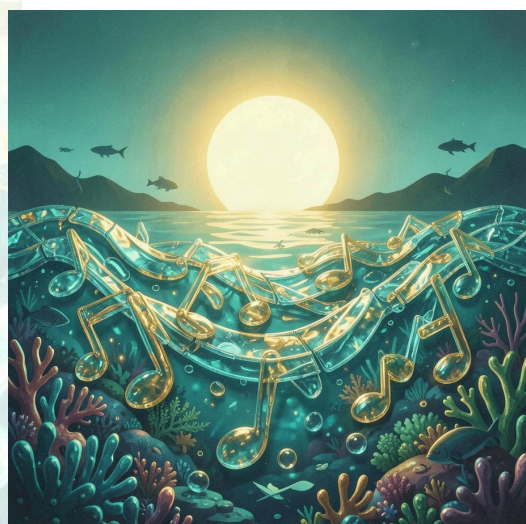

Our school has around 50 students and a full team of 15 educators across all specialties. In addition to the core curriculum subjects, students are taught English, French, Information Technology, Drama, Visual Arts, Music, and Physical Education. Varibobi Primary School provides school bus transportation, a swimming program, a lending library, and access to a social worker, psychologist, and school nurse. The school also runs a meal program and all-day classes, which help students complete their homework in the afternoon.

A casino, the Regency Casino Mont Parnes, is located near the top of the mountain and is served by a suspended cable car. There are a lot of trees, flowers, forest animals, streams and a nice square near our school.

The Blue Ocean

The ocean sighs a weary sound,
With plastic bits, all around.
Fish swim slow, a worried sight,
Lost in shadows, dimming light.
But see the sun, a golden gleam,
Awakening a hopeful dream.
We can mend, and we can clean,
A healthy ocean, fresh and green.
For every creature, big and small,
Deserves a home, standing tall.
From coral bright, to whales so grand,
Let's lend a helping, loving hand.
Let the blue be clear and bright,
Full of wonder, full of light.
Protect the ocean, deep and wide,
With care and love, side by side.

Ο ωκεανός αναστενάζει κουρασμένος,
Με πλαστικά σκουπίδια παντού.
Τα ψάρια κολυμπούν αργά, μια εικόνα γεμάτη ανησυχία,
Χαμένα στις σκιές, στο φως που σβήνει.
Αλλά δείτε τον ήλιο, μια χρυσή λάμψη,
Που ξυπνά ένα όνειρο γεμάτο ελπίδα.
Μπορούμε να το διορθώσουμε, και μπορούμε να το καθαρίσουμε,
Έναν υγιή ωκεανό, φρέσκο και πράσινο.
Γιατί κάθε πλάσμα, μεγάλο και μικρό,
Αξίζει ένα σπίτι, που στέκεται ψηλά.
Από τα φωτεινά κοράλλια, μέχρι τις μεγαλοπρεπείς φάλαινες,
Ας δώσουμε ένα χέρι βοήθειας, γεμάτο αγάπη.
Ας είναι το μπλε καθαρό και φωτεινό,
Γεμάτο θαύμα, γεμάτο φως.
Προστατέψτε τον ωκεανό, βαθύ και ευρύ,
Με φροντίδα και αγάπη, δίπλα-δίπλα.

One World - One Future!
