

*Welcome to our school*

*ΕΕΕΕΚ ΑΛΜΥΡΟΥ, GREECE 2023*

- ✓ Our school is [a Special Education Gymnasium](#) situated in Almyros, a seaside town near Volos. It has two workshops – Agronomy and Pottery.
- ✓ Agronomy- Our students learn to cultivate fruits and vegetables, plant trees and flowers. They also learn to respect nature and recycle in their everyday life.
- ✓ Pottery- They make things out of clay and wax.
- ✓ They are taught Independent Living.
- ✓ They have also started learning English.
- ✓ Fairy tales and Greek myths are a key point in their teaching. Taking part in etwinning project, “ create a myth “, is a challenge for them and a unique chance to learn about other countries’ heritage.
