The violation of children's Rights in Gaza

I am very disappointed due to this fact in Gaza zone does not proper for these days. A lot of children have lost their lives, or does not have simple needs such as food or home. Their rights are been violating, they cannot go to school and suffer from a variety of illnesses.

The violation of children's Rights in Gaza

I feel rage about those who kill innocent people, including women, children and elders. If Israel cannot respond to the attacks of the terrorists they should not take vengeance on the poor civilians. I think that something has to be done to protect the rights like providing supplies. They also, have a right to live and it is our duty, as a civilized society, to help them get over their difficulties. I mean, with economical crisis, it is a completely foolish action to wage war against non-combatants.

The violation of children's Rights in Gaza

Considering the blood spill which have taken place in Gaza these weeks due to the unsuitable behavior of Israel, I believe that lots of children's rights have been violating and because of the embargo which was existing before, their school progress had been declined. But, should Israel's forces continue to have non-combatant people as their main target, or stop the aggression against the unhelpful children who suffer all the time? It is a matter of discussion whether Israel should be judged at NATO's courthouses for this conflict. Children's rights do not totally exist in that area, and this must be seriously taken into consideration.

The violation of children's Rights in Gaza

I am very disappointed about the war in Gaza. A lot of children are being killed every day. Their rights do not totally exist in that area. In my opinion Israel have to stop the attacks against Gaza and Hamas.

The violation of children's Rights in Gaza

It has been a long time that a war had started in Gaza, which is continued with indescribable situations. Everyone's rights are violated and more and more people are dying. And now as the war is proceeding all the rights of life are violated in a way that something needs to be done.

The violation of children's Rights in Gaza

I am really disappointed and sad about facts in Gaza. Many children dead from the miserable situation there at worth .There ,it does not allow to send ours food and supplies .They do not function according to the right of the children. FOR example all children do not be equal prevail the violence . Unfortunately , for these children education is a wild dream. I hope the things will be better soon and the light of the children to have power again.

Penny

The violation of children's Rights in Gaza

I am very disappointed about the people who are being killed in Gaza. Most of them are helpless children who can't do anything about it .Also children's rights don't exist .In the near past children weren't allowed to do anything Foreign countries couldn't sent supplies to save children's lives .In addition they couldn't get free education.

Jim

The violation of children's Rights in Gaza

In my opinion, it is essential for the children to be educated and not to be treated in the way they are. The government should provide them safety and nutrition. I feel extremely disappointed with the facts that are taking place in Gaza. This is because the rights of the children are violated and more importantly, because it is obviously abnormal that children in such age pass away.

The violation of children's Rights in Gaza

All these facts that are happening now in Gaza cause me disappointment about the rights that children have there. In fact, people in Gaza don't have rights, especially children. They can't go to school or in other activities. They don't have food, water and medicines. The only schools and the hospitals that there are are being destroyed. They haven't any help, but the war is being continued. So, what about children's rights in Gaza? Surely the children in other countries have a better life, but from where will these children receive help? I hope things will be improved soon.

The violation of children's rights in Gaza

It is terrible, because there is nothing in Gaza what is written about children's rights. The rights don't exist. Children experience terrible poverty, they are completely tired. Besides, the children do the work which grownups must do and they have no time to play. Edvinas

The violation of children's rights in Gaza

The kids in Gaza really need help. They can't play computer games, what we-kids of normal countries can't imagine. Nothing to say about school and TV. They really need help. Andrius

The violation of children's rights in Gaza

Well, it's terrible. No children's rights at all! The children suffer from poverty, they cannot have rest anywhere, because all the buildings around them are destroyed. Children have to carry water, queue for it, plastic bottles contain 5 litres of water and are very heavy. I can't imagine life in Gaza, you have to hide and try to escape bombs. It is cruel! Aivaras

The violation of children's rights in Gaza

It is horrible, children have no food, no place where to have a rest, sleep. They can't play, they can't go outside. The only possibility to go out is when they stop bombing and children can go out and get food. It is terrible. Simona

The violation of children's rights in Gaza

I think that there are no conditions for children to live. They can be killed any time. Children live in the basement, everything is destroyed, children are hungry and they can't play. For me it is terrible that children in Gaza can't go to school and live in such terrible conditions. If I could I would help them. Bombs fly around them-terrible. Mantas

The violation of children's rights in Gaza

The children's life is horrible, they have to go for water but there is war around them. Perhaps their life is not interesting when there are no toys. To say nothing about school and clubs or games, such as football or basketball. It's difficult for children to live when they see a lot of other people die or houses explode. Horrible!!! Juste
