It's neseccary to give the same CODE WEEK 4 ALL and the etiquette #Giannoula Kyriakou, in order to get connected and get the Certificate of Excellence.

On the occasion of World Animal Day, we choose with our students one or more animals that we want to help to make them happy. We discuss how they will be happy and draw our ideas on the cards at the end of this document. We place the cards on the Beebot or any other robot model and guide the little robot to the answers we gave, so that our animal becomes happy.

We take pictures during the activity and post them to the following padlet: <a href="https://padlet.com/giannakyriakou/we-make-animals-appy-xy4018ckcmsqb8pz">https://padlet.com/giannakyriakou/we-make-animals-appy-xy4018ckcmsqb8pz</a>

Thank you for your participation!
