### PTSA SSL Certificate Issue Update

July 2020 Update for CCNA Routing & Switching 6.0 courses, CCNA Security 2.0, Networking Essentials 1.0, and CCNA ITG 2.0.

Some academies may experience issues with older versions of the PTSA exams. Students with Packet Tracer v 7.1.1 need to perform the following 3 steps prior to taking the PTSA exam:

- Step 1: [Download the PKA file and instructions](#)
- Step 2: Follow the instructions in PDF file
- Step 3: Proceed to access the PTSA exam

August 2020 Update for CCNA Routing & Switching 3.0

### Download

Choose the OS you are using and download the relevant files. [Read the FAQ](#). [View Tutorials](#).

Packet Tracer requires authentication with your login and password when you first use it and for each new OS login session. (1)

Considering to upgrade?

For CCNA 7, Packet Tracer 7.3.0 is the minimal version that supports CCNA 7.

For CCNA 6 (and older versions), we recommend instructors and students stay with Packet Tracer 7.2.2.

If you are learning/teaching both CCNA 6 and 7, please use Packet Tracer 7.3.0.

When using Packet Tracer 7.3.0+ for CCNA 6, there is a small possibility you may encounter a warning message.

If so, you may [discard](#) the message. It is simply a warning that scripts in this file need to be updated for Packet Tracer 7.3.0+ compatibility.
