### **Max's school day and his free time activities**

Hi there! I'm Max, and I'm 15 years old. I live in Berlin, Germany. Let me tell you about my school day and what I do in my free time.

So, every morning, I wake up early and get ready for school. My school is not too far from where I live, so I usually ride my bike there. Once I'm at school, I have different classes like math, science, history, and German. My favorite subject is sports because I love playing soccer with my friends during the breaks.

After school, I often hang out with my friends. Sometimes we go to the park and play more soccer, or we just chill and talk about video games or the latest movies. Berlin has so many cool places to explore, so we also like to visit museums or check out new cafes.

When I'm not with my friends, I enjoy listening to music and playing my guitar. I've been learning some new songs, and it's a lot of fun. Sometimes I even write my own music!

In the evenings, I usually help my mom with dinner or do my homework. But if I finish early, I might watch a movie or play some video games before going to bed.

That's pretty much how my school day and free time look like. It's always busy but also a lot of fun!

### **My Life in France**

Hi! I'm a 21-year-old guy in Paris, France. Let me tell you about my day.

In the morning, I go to school. I study business at the university. Classes can be long, but I try to pay attention. After school, I have lunch with friends. We like trying different cafes. Then, if it's nice outside, we walk around the city.

In the afternoon, I have free time. I play basketball with friends. In the evening, I meet friends for dinner or watch a movie. Paris has a lot to do!

That's my day, full of school and fun!

Hey there! I'm a 15-year-old girl from Ohio, and I'm gonna tell you about my school day and what I do for fun afterward! So, school starts pretty early for me. I wake up, get dressed, and have breakfast with my family before heading out. The bus ride to school is always a mix of chatting with friends and trying to wake up fully. Once I'm at school, it's all about classes, friends, and maybe a little bit of homework. Math is my toughest subject, but I try my best. Lunchtime is when I get to hang out with my buddies and share some laughs. After that, it's back to classes until the bell rings.

When school's over, I usually have some free time before dinner. I love to spend that time outside if the weather's nice. Sometimes I'll ride my bike around the neighborhood or just chill at the park with friends. On weekends, I often hit up the mall with my friends. We love checking out new clothes, grabbing a bite to eat, and maybe catching a movie if there's something good playing. Overall, my days are pretty busy with school stuff, but I always make time for fun with friends. It's all about finding that balance, you know?

### **Anna's School Day**

Hey there! My name is Anna, and I'm in the eighth grade at one of the schools in Moscow. My day starts early in the morning when I wake up to go to school. While I'm on the bus, I usually read a book or listen to music with my headphones on.

We usually have a lot of classes at school. But my favorite is literature. We study Russian classics like Pushkin, Tolstoy, and Dostoevsky. After classes, I often stay at school for extra English lessons. I dream of traveling abroad and learning a lot about other cultures.

When I get home in the afternoon, I like to spend time with my friends. Sometimes we go to cafes or parks near our neighborhood. We also enjoy watching movies together or playing games. On weekends, I like to visit museums or explore different parts of Moscow with my family. It's always exciting to discover new things in this big city!

*My life in Zoniana*

*by A.I.*

Today was a regular day at school in Zoniana. First, we had math class, and surprisingly, I managed to understand most of it. Then came lunchtime, which is always fun because I get to sit with my friends and we share jokes and stories. After lunch, we had PE, and we played soccer. I even scored a goal, which felt awesome!

Once I got home, I finished my homework quickly so I could go out and play. I rode my bike around the neighborhood with my friends, pretending to be adventurers exploring new lands. Later, we played video games at my place, which is always a blast. Hanging out with friends after school is the best part of the day!

### **Vladimir and his daily routine**

My day at school starts early in the morning. I wake up, get dressed, and have a quick breakfast before heading out. The cold Russian air greets me as I walk to the bus stop, where I catch a ride to school with my friends. Classes can be tough, especially math and science, but I try my best to pay attention and learn as much as I can. During breaks, my friends and I usually hang out in the schoolyard, chatting and joking around. After school, I often have some free time to relax and unwind. Sometimes I play soccer with my friends at the local park, kicking the ball around and enjoying the fresh air. Other times, I prefer to stay indoors and play video games or read books. In the evenings, I usually have homework to do, but I try to finish it quickly so I can spend time with my family. We like to have dinner together and talk about our day. Overall, my school days are busy but fulfilling. I enjoy learning new things and spending time with my friends and family.
