THOUGHTS AND FEELINGS OF 3rd GRADE OF JUNIOR HIGHSCHOOL STUDENTS CONCERNING LEARNING A NEW LANGUAGE

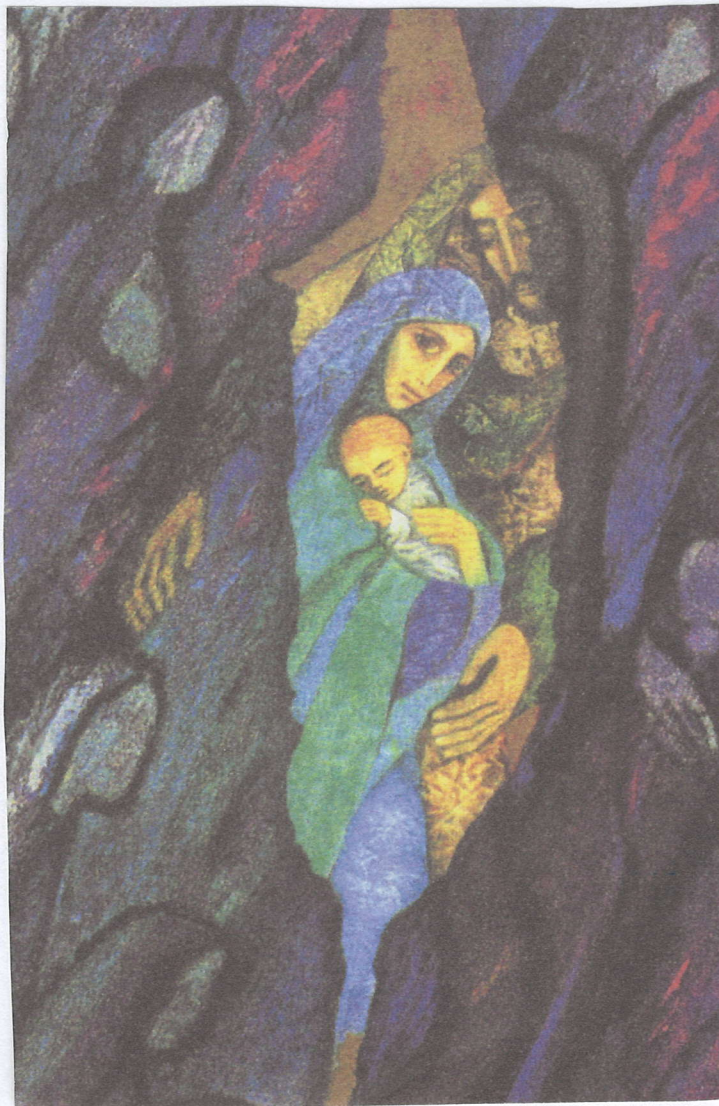

Personally, I enjoy learning new languages, as it gives me the ability to communicate with people from every corner of the world. This facilitates my learning of their customs and traditions. So, mutual respect and love is getting cultivated. Language is a Gate through other people's areas.

I am sure everybody needs other humans' help. So, I am happy I can communicate with as many as possible, when they need me or I need them.

We are lucky learning new civilizations and new cultures, as well as gaining new friendships, as many as possible.

I am shy as a character, and learning a foreign language will help me become more sociable.

English is a knowledge and all people should have knowledge, which is transformed into Power and Love.
