world.my first method *No parameters* create new parameter

x1 = 1 , x2 = 1 , s = 1 create new variable

x1 set value to ask user for a number question = Start value? more... more...

x2 set value to ask user for a number question = End value? more... more...

s set value to 0 more...

3D Text set text to Please wait... more...

Loop index from x1 up to (but not including) (x2 + 1) incrementing by 1 show simple version

s set value to (s + index) more...

3D Text set text to s as a string more...
