world.my first method

world.my first method No parameters create new parameter

$b = 1$, $s = 1$, $mo = 1$ create new variable

s set value to 0 more...

Loop 10 times times show complicated version

- b set value to ask user for a number question = Enter a Number: more... more...
- s set value to $(s + b)$ more...
- mo set value to $(s / 10)$ more...
- 3D Text set text to mo as a string more...
