not-so-famous pictures

It was very very early in the morning and all the people on the island of Rocco were sleeping. It was 6 o' clock and Bulgan, the colourful rooster with the terrible voice, started to sing "Shape of You" to wake up the people. They must go to their work!

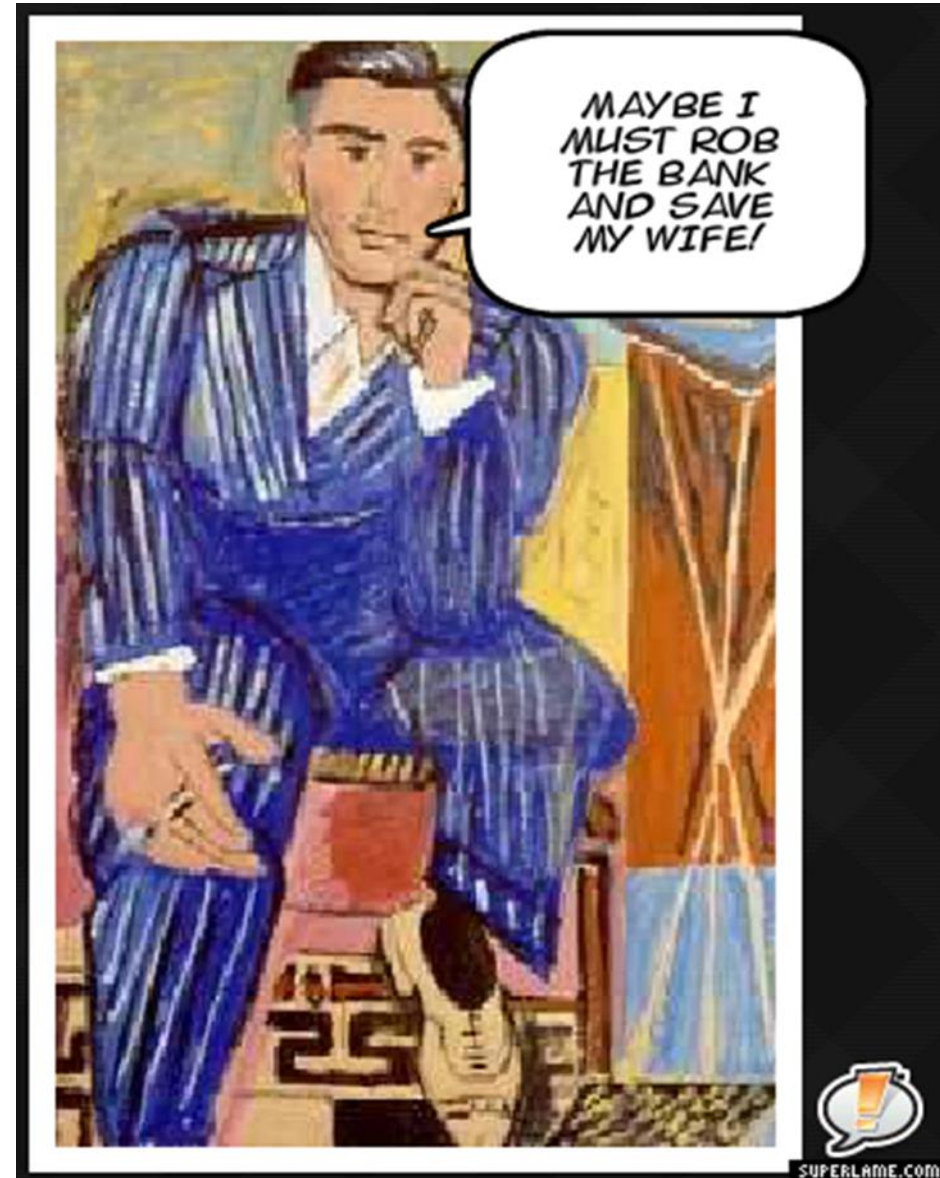

Mona Lisa the famous super model was already awake . She was sitting on her armchair watching the morning news on ROCCO TV.

Queen Elizabeth was selfish and stubborn. She wanted more money, more jewels, more gold! MORE DIAMONDS! Or she will kill the beautiful Mona Lisa.

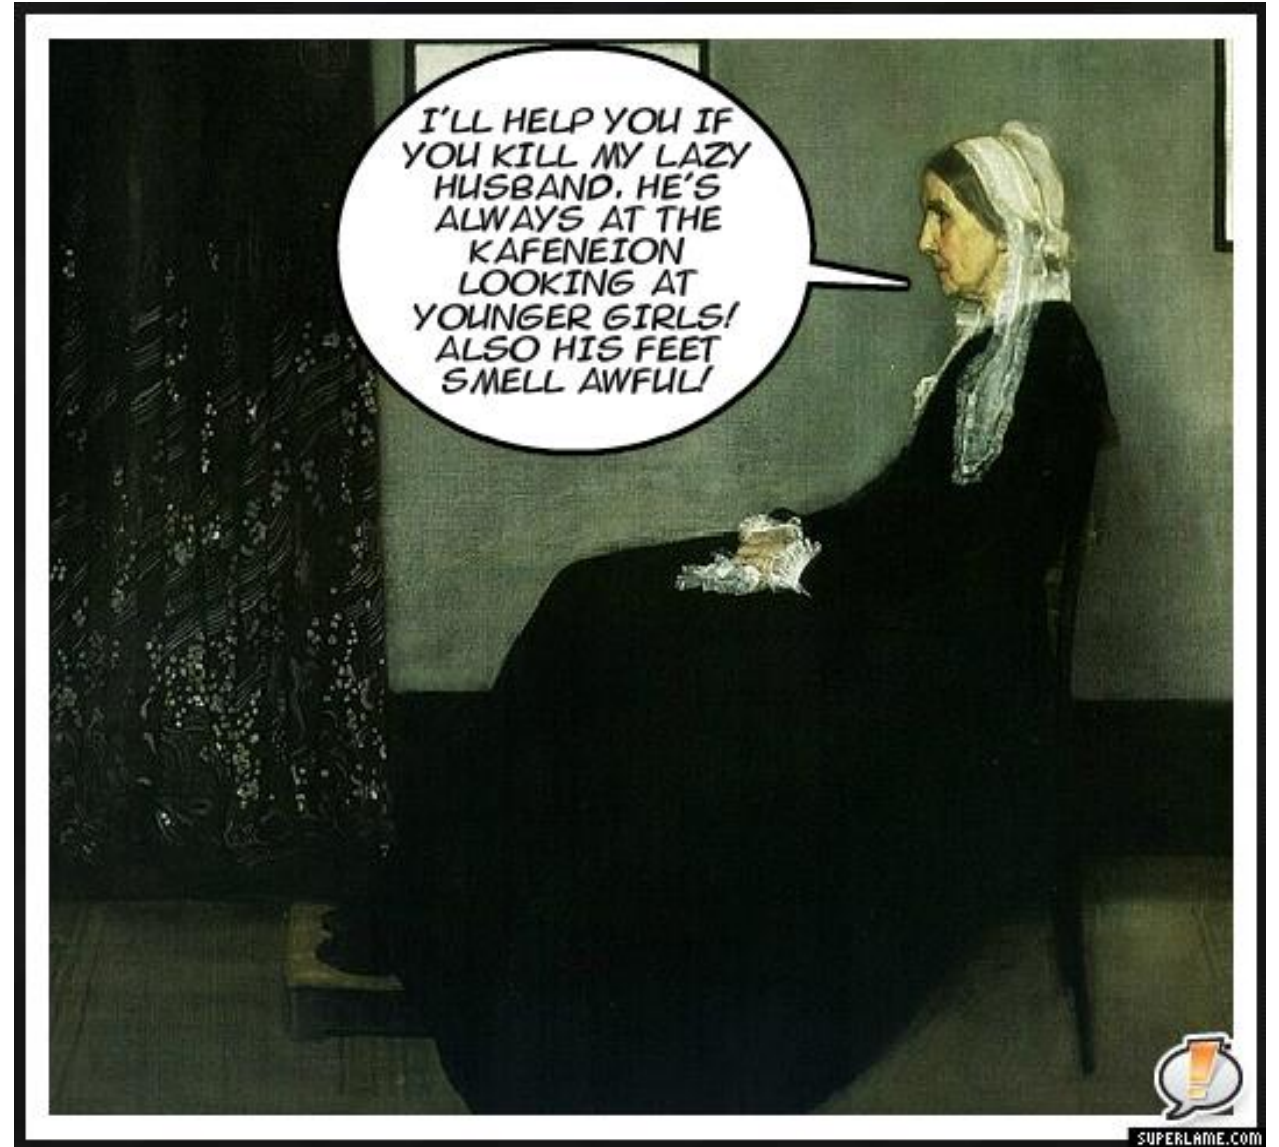

The queen called Mona Lisa's husband Luigi and threatened to poison his wife if he didn't pay the bills.

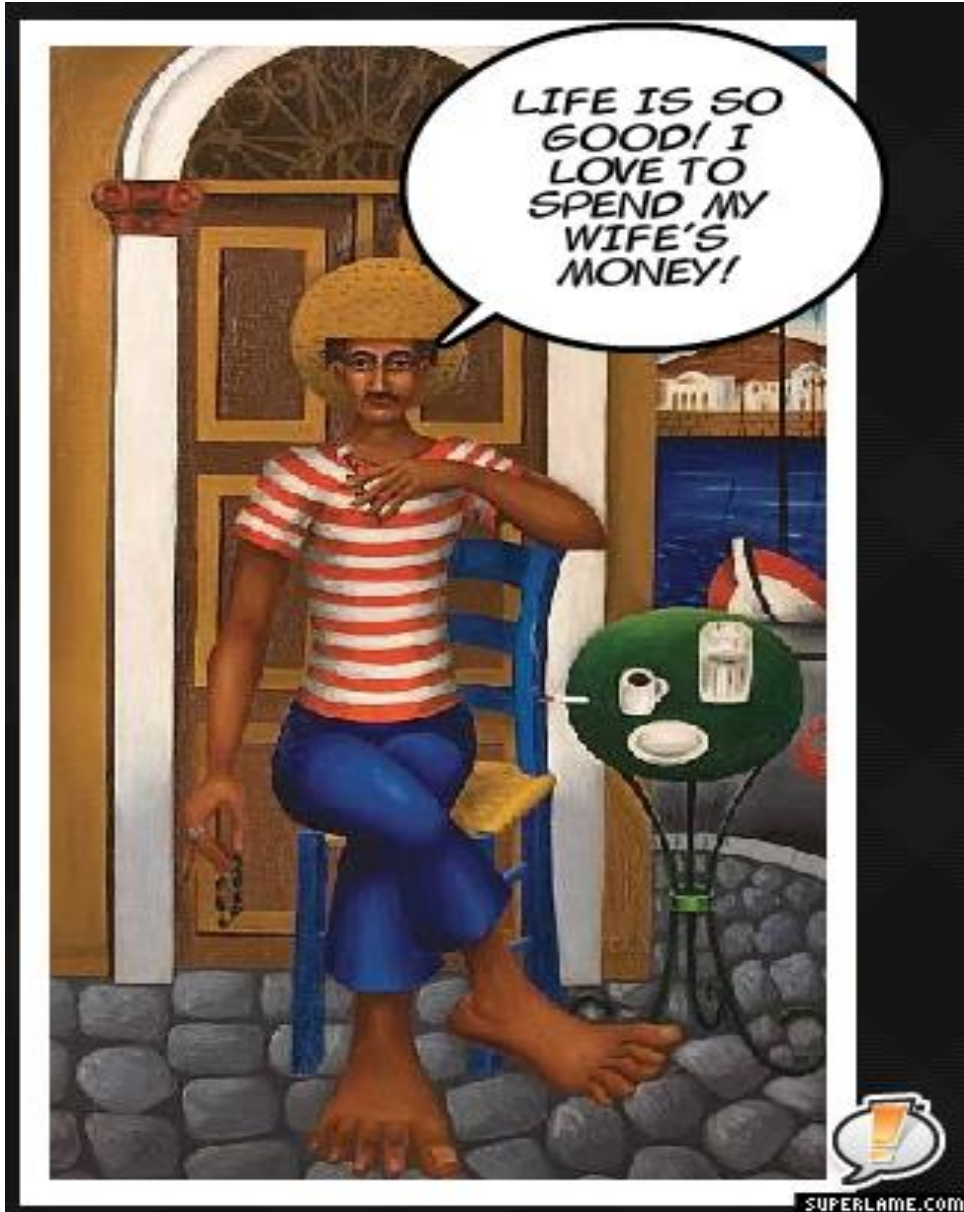

The milkmaid made breakfast for Mona Lisa with poison in her milk.

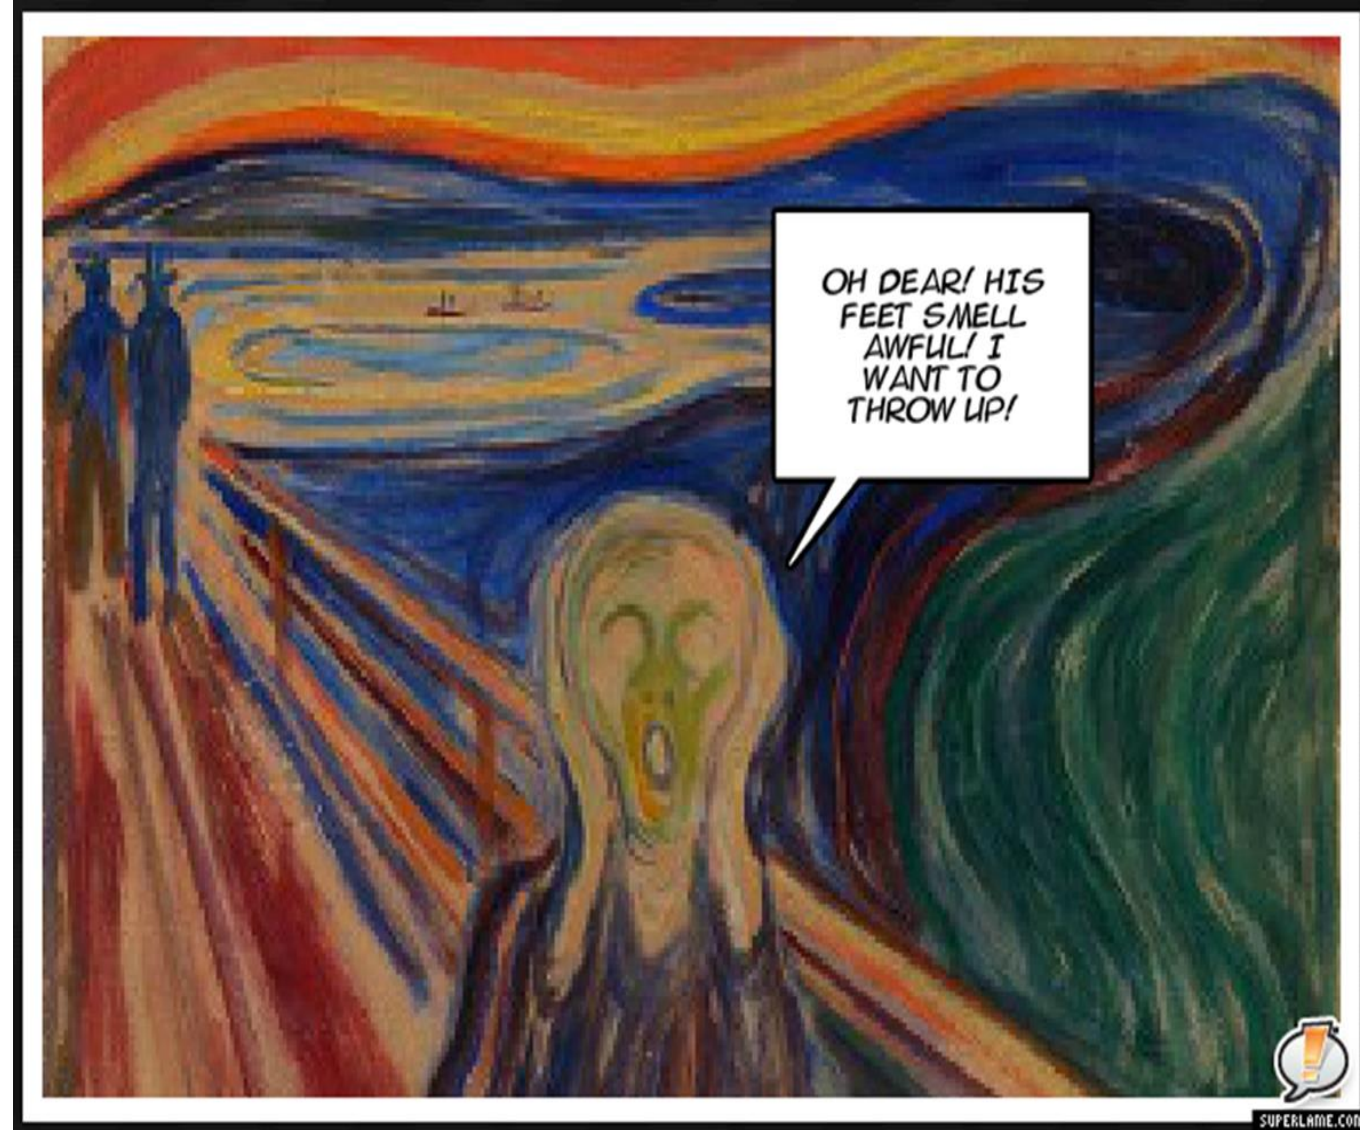

Mona Lisa's husband went to the boss of Mafia, known as Whistler's mother, to ask for help. He wanted to rob the ELIZABETH BANK at midnight with her sons but he didn't know where they were.

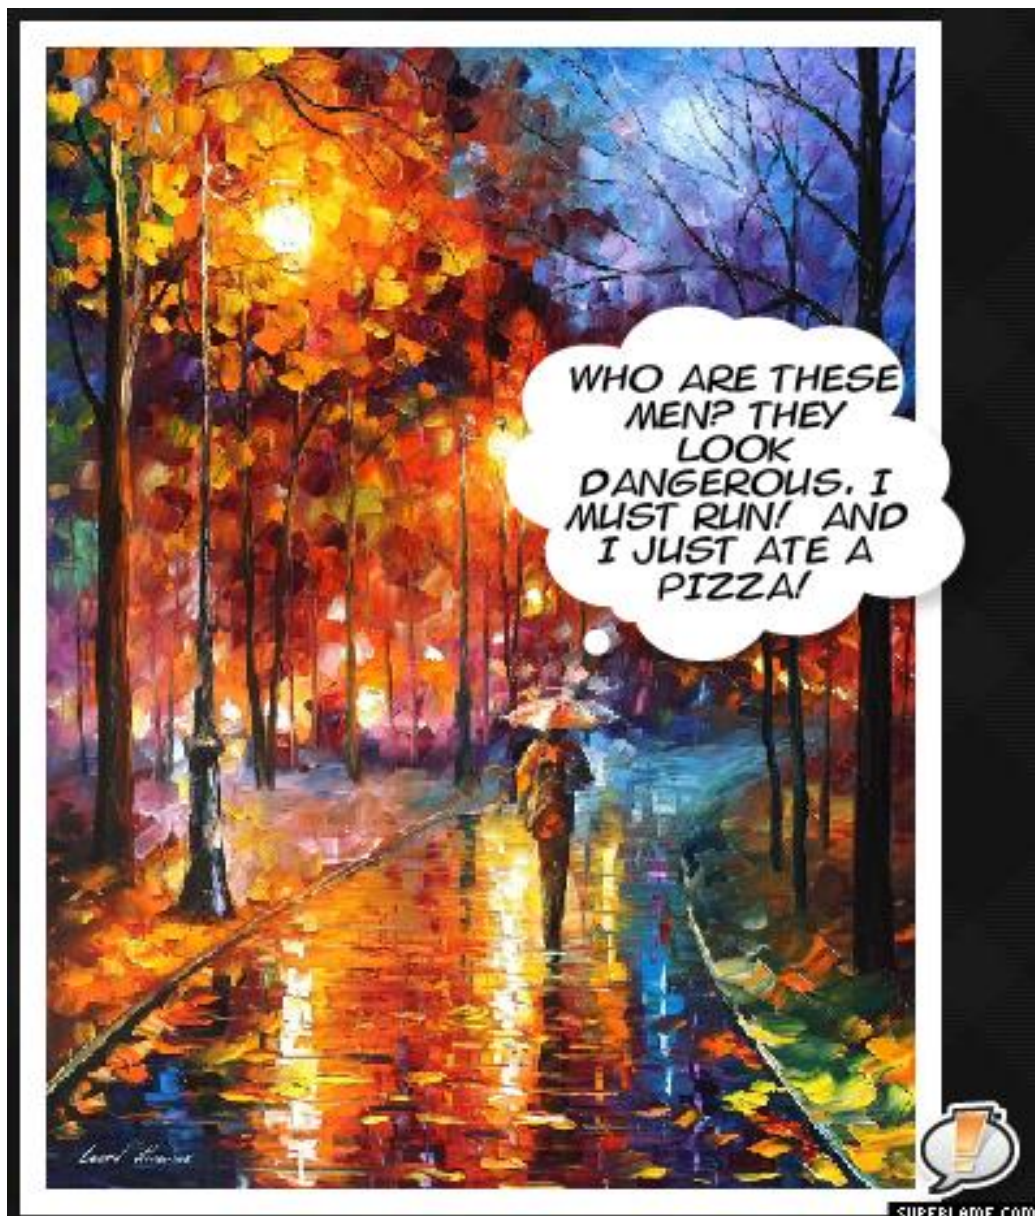

After that Luigi found the lazy husband at the kafeneion. He didn't go fishing again. He was drinking ouzo. Luigi wanted to kidnap him.

When Luigi went near him, he couldn't smell his feet! They were so dirty and they smelt like stinky socks! He ran away.

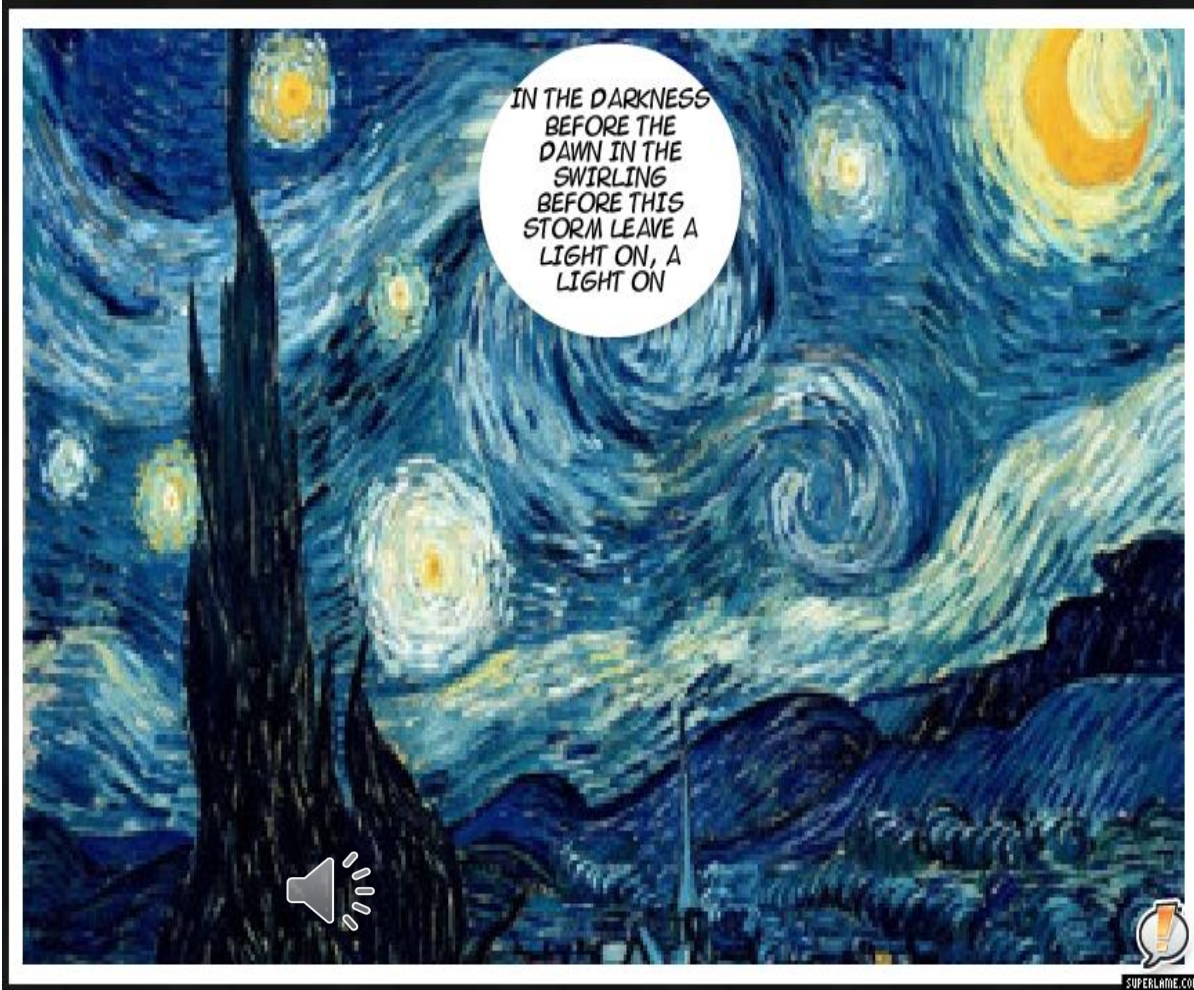

He walked and walked in the rain and thought what to do with the money. Then he understood that someone was following him.

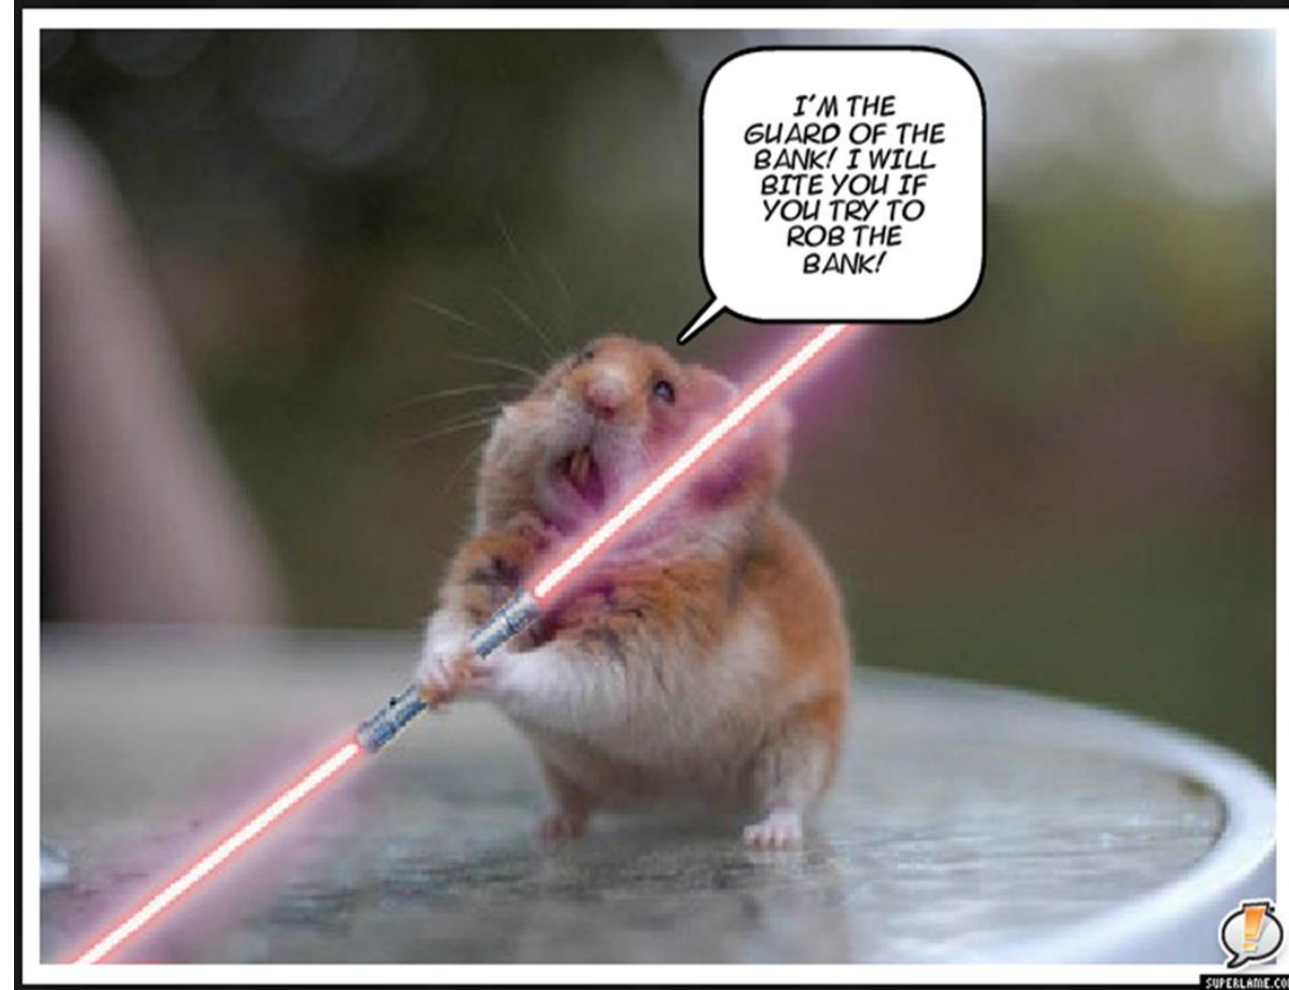

Suddenly the three gangsters appeared. They and Luigi talked about what to do with the robbery.

It was a windy starry night and the four men prepared for the robbery. They wore black clothes for camouflage and bought big bags to put the money in. They also brought tools to break into the safe.

When they got to the bank, they saw a monstrous, vicious, dangerous, a war-machine security guard. A hamster with a lightsaber! They fought with it and in the end they threw a piece of cheese for the hamster to eat.

As soon as they opened the doors of the bank they saw a million gold coins. They felt as excited as they were when they eat 15 cupcakes. They couldn't believe their eyes! Quickly they put the money in the bags and away they went.

When they left the bank, they went to a small deserted haunted room to count the money. There was a comfortable, wooden bed, two chairs and a small table with some bottles on it. There was a big window and many pictures on the walls. Under the bed they saw a secret path. They decided to follow it.

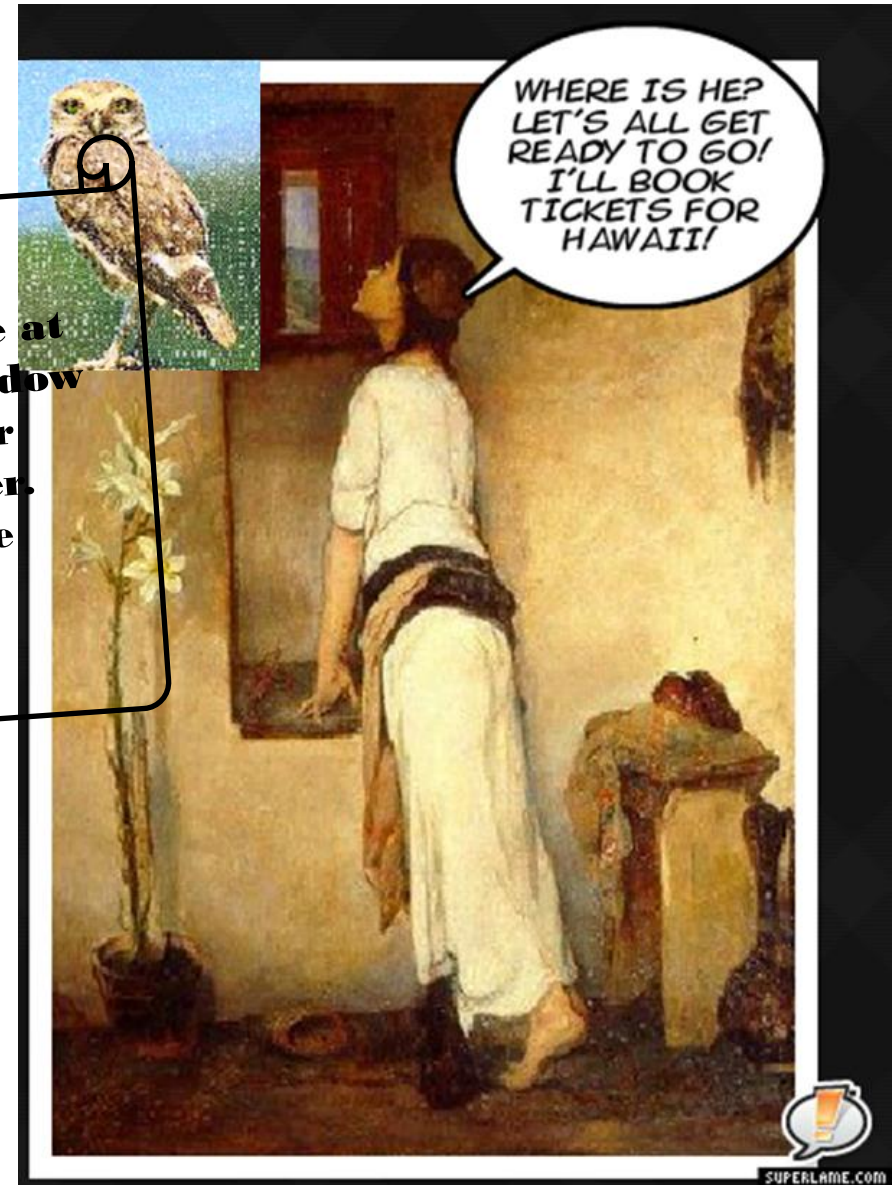

They went down into the path and there they found a chubby young girl with a cat. The three men realized that this girl was their missing sister who their father Don Antonio Maccaroni locked in the basement. Their father was so angry because she wasted most of the family's money on food.

Mona Lisa was waiting for her husband. Then a creepy owl came and gave her a message from Luigi.

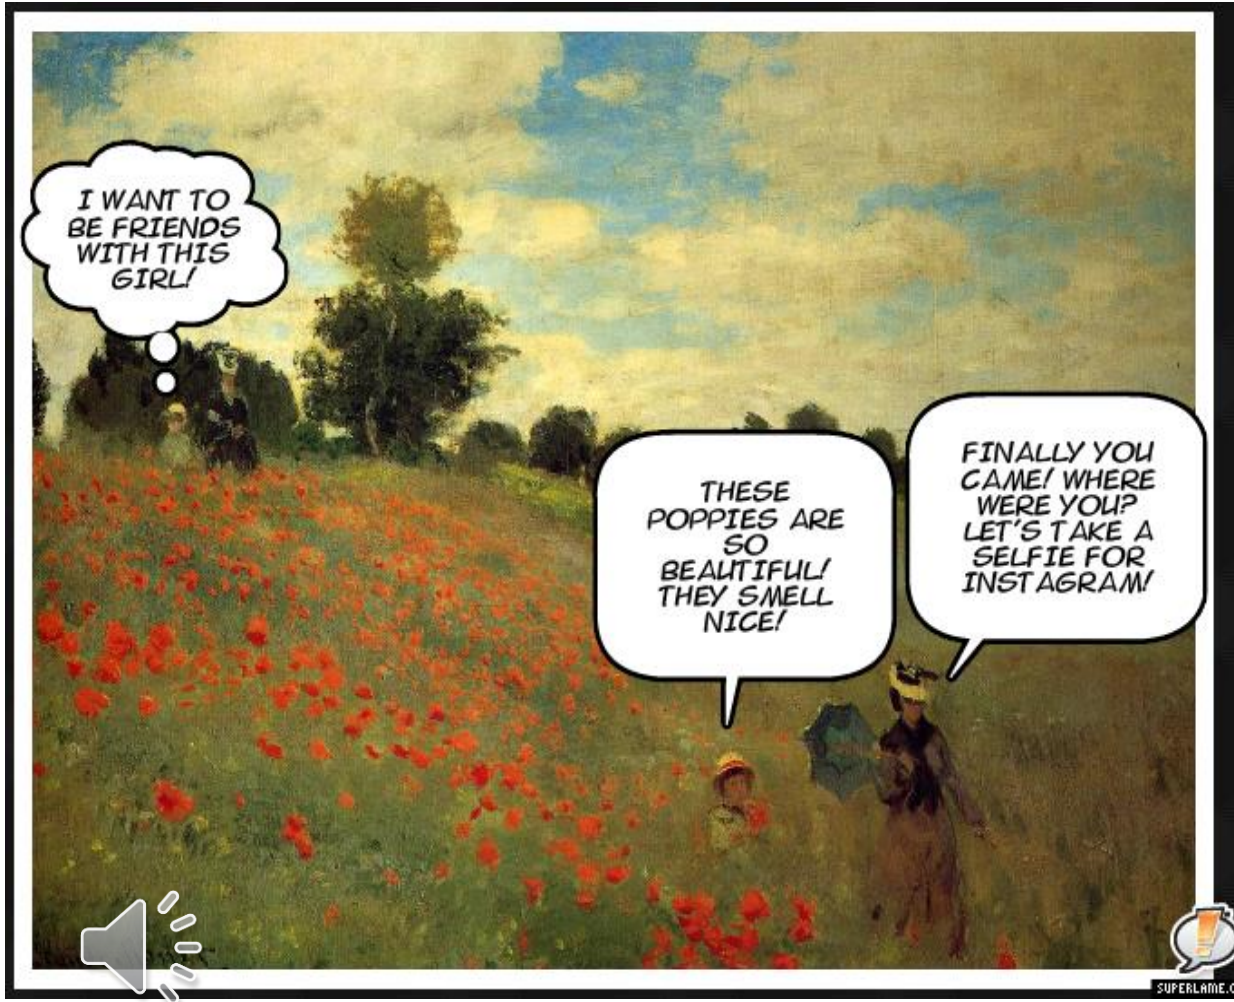

**My love,
Meet me at
the meadow
with our
daughter.
Don't be
late!
Luigi**

After an hour Mona Lisa, Luigi and their daughter met. They crossed the field with the poppies and decided not to pay the evil queen.

They hugged and got ready for their trip away from Rocco island and queen Elizabeth.

They put the money in the suitcase and went to the port of Rocco island. They got on a boat and travelled to the exotic Hawaii.

They spent their days eating watermelon and swimming in the wavy sea. They enjoyed the magic sunset. They lived happily ever after.
