

# *The dangerous cake*

**A story based on the characters of four paintings**

**Written and illustrated by the pupils of E2**

**19<sup>th</sup> Primary School of Thessaloniki**

**February – March 2017**

**Every Sunday Afroditi goes for a walk in the Black Forest with her parents. She's 11 years old, tall and slim. She has got very short brown hair and blue eyes. She's wearing a white long dress.**

**She lives in Nevertopia, a town in the north of a small country, Fairytopia. It is built near a magic lake and around it there is the dark woods. Elves and fairies live in the lake. It is sunny every day and one day of the year it rains. It rains cats and dogs! It is a quiet town and the people are very friendly. They don't use simple cars or trains, they use chocolate cars, black forest chocolate cars!**

**Afroditi is a very special girl. Her father is a scientist and when she was 5 years old, she drank a secret formula so now she has magic powers. She can talk with animals!**

Seminar for scientists 2017 for 21st century

HA, HA!!

**This week there is a seminar for scientists in Nevertopia. The best scientists in the world try to make the biggest Black Forest cake to use as medicine in the 21<sup>st</sup> century. But Dracumel, the worst scientist ever, steals it and puts a bomb in it. This bomb can destroy the town! He hides it in the middle of a huge maze.**

**Dracumel's daughter, Patty-Fatty, the girl with the fat cat, sees her dad and she wants to eat the cake. It looks delicious! "A yummy yummy cake! It's waiting for me! Let's go in the maze!", the girl says.**

When she goes in, it is dark, wet and cold. She sees tall black trees and thick bushes. Nothing else ... She can hear a tic-tac, tic-tac. "*What is that noise? Can it be a clock?*", she says. She is alone, scared ... **TERRIFIED!**

**But she is hungry, so she walks and she walks and she walks looking for the cake. Suddenly she is lost. She calls from her i-FAIRYPHONE 5 her friend, Afroditi, for help.**

**Afroditi gets in the maze to help her friend but when she meets her, she doesn't remember the way back. Now they are lost together!**

START

**The dove feels something weird about his friend Afroditi and it tries to look for her. He flies to the forest when he sees the secret maze. It hears Afroditi and Patty-Fatty calling for help.**

*“How did you find me, my dear dove?”, Afroditi asks.*

*“I feel something is wrong. What can I do to help?”, the dove says.*

*“Find my cousin with the kite and take him here”, Patty-Fatty says.*

**The dove flies away and the two girls keep walking. Suddenly they see a young sailor. What is he doing here – a sailor in the black forest? He was in the woods ten years because he was sailing in the sea and one day a strong wind took him in the forest.**

The three of them find the cake and the young sailor says *“I saw your dad, Patty-Fatty, that he put a bomb in the cake. Now I will help you diffuse the bomb.”* He finds the riddle on the top of the cake

NOTUB SHT SSERF, BMOB SHT ESOFED OT

and he uses a mirror to read it: **To diffuse this bomb, press this button**  
So the kids push the button, diffuse the bomb and save all Fairytopia.

**After a while they see the dove  
with Patty-Fatty's cousin holding a  
kite. The kids get on the kite. The  
cousin whistles and the kite flies  
up in the sky away from the scary  
maze with the children on it.**

The kite flies to Nevertopia and all the people cheer and shout "*Hooray! You are the best heroes!*".

Mayor Millefeuille gives a big piece of cake to everyone because he is happy the town is safe.

his piece of cake to everyone because he is

## Paintings used :
