<p>I know that the sustainable tourism is great for the environment. It's a really good way not to pollute the environment and enjoy the nature that we have. It's important to take care of the environment because we can be realized it, we live it.</p>	<p>I want to know more about how I can take care of the environment.</p>	<p>I learned that you don't need to have a car because you can go everywhere with the bicycle. We visited the tower in Seville which is the most beautiful view. I learned about the Gold Tower of Seville which was built by the muslims. We also learned about the Columbus tree and what goods he brought to Spain after his trip. I learned the city of Seville not like a tourist but like a local girl, and that was the best part. In the end we saw the market and played a game which was asked to find the name of two sweets. It was the best day ever. Seville</p>
