PEACE?  
PEACE!

# Definition of peace:

- freedom from war and violence, especially when people live and work together happily without disagreements

- Peace, is :
  - very important in our lives
  - essential to our overall well-being.
- However,** it has:
- eluded us for years and years in this world.
  - been hindered by war

- guns are silent,
- form of conflict (negative effects on the future society and spark more wars and conflicts in this world.)
- conflicts that can prevent peace from being possible are conflicts between :
- different ethnic groups, different religions, different races
- we should try as much as possible to raise the future generations that will replace us one day to value peace above all else so that **this world will be a better place.**

# Conflict:

- is senseless
- accomplishes nothing for us
- creates more problems.
- is a big factor contributing to revenge
- does not have to be this way as there is still hope for us to become peaceful.

# How?

- Peace
- benefits,
- more favourable option than conflicts.
- solution to these **conflicts** is finding some sort of common ground or understanding from the neutral point of view of a mediator.

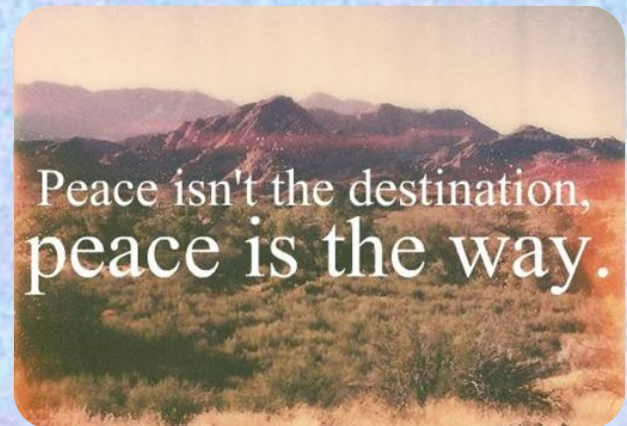

- Mutual understanding
- development of peace
- resolve our differences
- raising children in a positive way
- resolving differences with a beneficial solution,
- rooting out problems before they grow.
- less lives will be lost,
- there would not be chaos and destruction

# How International Community has been trying to :

- secure peace
- keep under the aegis of the United Nations
- use of international law

- popularization of peaceful
- means of conflict-resolution,
- institutionalization of relations among nations;
- integration of international community through

- strengthening of human consciousness in favour of peace against war
- by enhancing the ability for crisis-management, the humankind has been trying to secure peace against war.

‘you destroy your enemies  
when you make peace with  
them.’”

-Proverb.
