

ΔΙΕΘΝΗΣ
ΑΜΝΗΣΤΙΑ

Honourable Mrs Minister of Education,

The right to education is a basic right for the children of the world.

The education we want is qualitative, inclusive and embraces all the students, without discrimination!

To accomplish this, we want you to ask:

First of all, we need more teachers, because now our school does not have enough teachers to cover all subjects and we need teachers to teach us about the Greek culture and rules so that refugee children can study and have a better future and so that the hardships they have endured in the past will be partially compensated.

Thanks and respect,

The students of Senior High School of Intercultural Education of Eastern Thessaloniki
