Minister of Education,
The right to education is a basic right of all the children of the world.

The education we want is qualitative, inclusive and embraces all the students, without discrimination!

In order to achieve this, we would like to ask you to allow the teachers to create the end-of-year exams so that refugee children can have a fair chance at success as their own teacher will be able to assess them and give them a fair exam to prove themselves.

Thank you!

The students of Senior High School of Intercultural Education of Eastern Thessaloniki
