ΚΟΝΙΤΣΑΤ

The Senior High School of Konitsa

Our school is located in a beautiful area in northwestern Greece, within a lush green landscape in the mountainous district of Hipirus, very close to the country's borders. Among the area's landmarks, there is a single-arched stone bridge, which connects the banks of a flowing river with crystal-clear waters and leads the path to a gorge, in flourishing surroundings.

The school is attended by 41 students, aged between 15 and 18 years old. Some of them come from the neighboring villages of Konitsa and either commute daily or are offered shelter in the Town's Youth Center.

Our students are highly motivated learners and struggle for achievement and success in every respect. An e Twinning project will offer us the chance to share experiences in terms of culture and language and will engage us in a partnership of friendship, socialization and interaction.

LEARN IT - EMBRACE IT - COMMUNICATE IT
