

# SCHOOL BUILDINGS

# HUNGARY

- More organized and bigger
- Have laboratories and special classrooms
- Places for free time, do their homework and have lunch

# INDIA

- No particular equipment
- Not many special classrooms
- More buildings and more students

# NORWAY

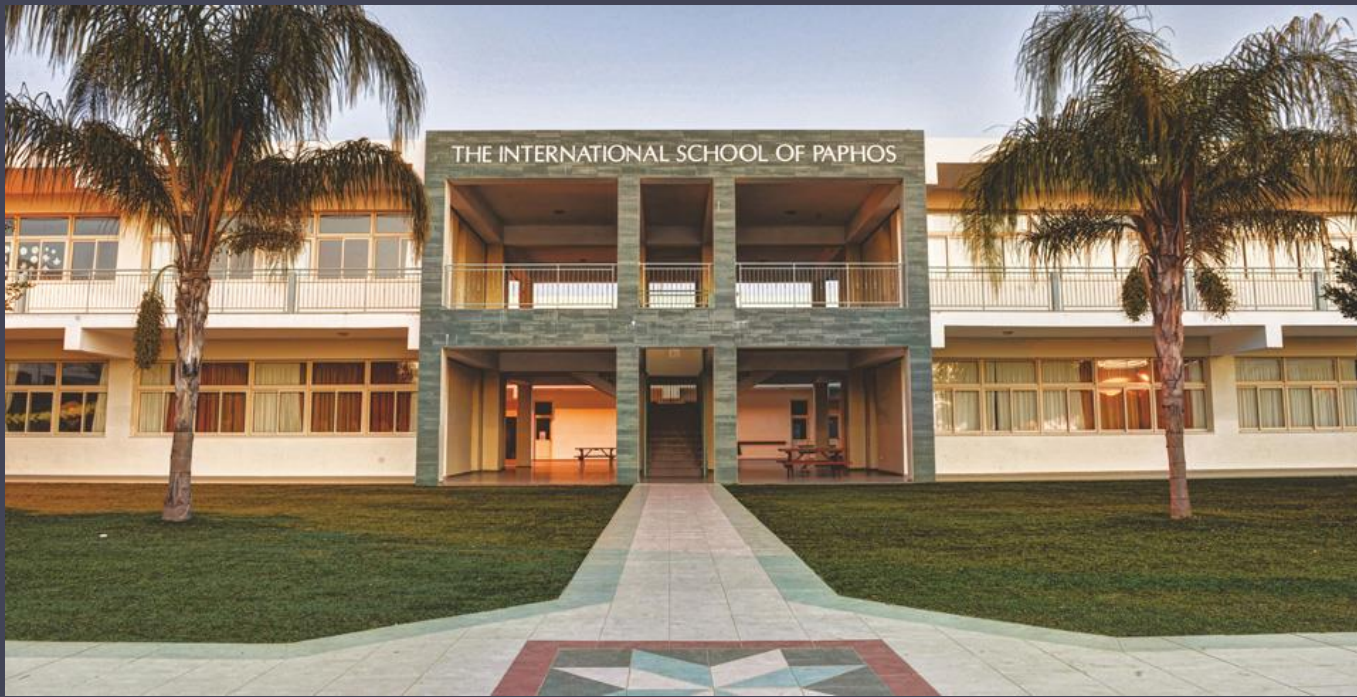

- Are simple enough and depressive
- The buildings are not attractive
- The educational system is innovative
- And progressive

# UGANDA

- Do not look like schools
- There are not a lot of classrooms
- And facilities either

- The most organized
- A lot of facilities
- Great educational system
