Dear Principal, dear teachers, dear students of the General High School of Naxos Manolis Glezos,

We're glad to welcome your group of 10 students and 3 teachers in our school from the 27th of November to the 2nd of December, or for a longer time if you like, and to start a collaboration as far as the Erasmus plus project is concerned.

We're sure that this experience will be interesting and exciting for both the students and the teachers and, as agreed with Mrs Rota, we'll send our group to your school in spring.

Working together on important issues like the cultural heritage of our two countries and the role of artificial intelligence will certainly make the students acquire a deeper awareness of their prestigious civilizations but besides that it will allow the discovery of the European citizenship and will give birth to a long lasting friendship.

Looking forward to meeting you soon
